Miele Built-in Coffee Systems

At Miele, we believe that a rich, creamy coffee is a beautiful thing. So we designed a series of coffee systems that are beautiful to look at, simple to use, and have the ability to create the perfect espresso, cappuccino, latte, macchiato, or coffee every time. Whether you choose our whole bean or Nespresso capsule system, you'll agree that we've met our goal: to create a coffee system that you can appreciate as much as the drinks it creates. Enjoy!

Miele

About Miele

Since 1899, we have been proud to make products that live up to our mantra, "Immer Besser" — a German phrase that translated to English means "Forever Better." To us, "Immer Besser" is more than just an expression; it's our commitment to continually enhance our products through design and innovation. The result is superior quality products that perform both reliably and efficiently.

Miele

Performance

PERFECTLY FROTHY MILK

Getting a creamy milk froth is easy with Miele. Our Nespresso machines use our unique dishwasher-safe cappuccinatore to easily heat and froth milk. Our whole bean machines on the other hand store milk in a double-walled stainless steel thermos, and dispense milk froth at the touch of a button.

EASE OF USE

The whole bean systems grind beans and fully automates the preparation of espresso and coffee with a perfect nut-brown crema, and provides the option of using ground coffee. Alternatively, our Nespresso machines use convenient hermetically-sealed individual Nespresso capsules, for a perfect roast every time.

PLENTY OF CHOICE

The Nespresso capsule systems gives you the freedom to select from 12 standard varieties from mild to strong, from smooth to intensive, all with exquisite flavour and aroma. With the whole bean system, you can store any variety of coffee beans in the bean reservoir, and brew ground coffee by the cup, giving you the ultimate freedom of choice.

AUTOMATED CLEANING

Miele takes the hassle out of cleaning your coffee machine. The automatic rinsing function flushes the coffee spouts and milk nozzles automatically, and the machine goes through an automatic cleaning process whenever it is turned on or is coming off stand-by. Also, most parts, including the drip tray and waste containers, are dishwasher-safe for simple clean up.

Design

COFFEE ANYWHERE

With no special plumbing or electrical connections required, many of our units can be installed virtually anywhere in your home, from your kitchen, to your master bedroom, to your living room, to the office.

DESIGN

With its attractive design, the Miele built-in coffee machine will be the focus of attention in your kitchen. The elegant design will fit in like a dream, and with distinctive design features, they will blend in perfectly with other Miele appliances.

CLEANTOUCH STEEL

All of our coffee systems employ CleanTouch Steel on the exterior for a professional appearance. CleanTouch Steel is a treated stainless steel that resists fingerprint marks, and is easy to clean with mild soapy water. No special detergents are necessary. Matching cup-warmers are also available in CleanTouch Steel for a seamless, integrated look.

Quality

GERMAN DESIGN

All of our coffee systems are designed by Miele in Germany.

QUALITY CONTROL

All Miele products have been rigorously tested to last at least 20 years. Each product we make goes through a strict end line test before passing quality control.

HAVE QUESTIONS?
Please ask your Miele Chartered Agent for more information or go to **miele.ca**

What is Miele ForeverCare?

Miele provides unique advantages to our customers with a combination of features unparalleled in the appliance category, namely:

Manufacturer-Direct Service.

If you ever have a problem with your Miele machine, it's our own Miele Factory Service Technicians who take care of it. Most problems can be solved on the first visit, as we know the exact model you have and carry the genuine Miele parts you will need.

Extended Warranty from the Manufacturer.

We want you to enjoy a long and trouble-free experience with our machines. In addition to the standard warranty, we have Miele Extended Care Certificates. This direct offer from Miele allows you to increase your hassle free coverage up to ten years. The extended warranty relationship remains directly with Miele, so you can deal with us if you have any issues.

Miele Custom Plans.

The chart below illustrates how you can upgrade the benefits of ForeverCare.

Manufacturer Delivery and Installation.

We want your machine to work perfectly from the first time you use it. So we offer delivery and installation in your home ourselves, with our fully Miele-dedicated service team. Installation can be organized within 48 hours of ordering through the Miele Customer Care Centre, and your delivery is tracked with GPS so we can provide you with a nearly exact time of delivery.

Miele CareCollection.

To ensure you make the most of your Miele appliance, we've created a range of everyday and specialty products available for purchase. From laundry detergent, to dishwasher tablets, to a variety of cooking accessories, these products are designed specifically for your appliance, ensuring better results and a longer, hassle-free, lifespan.
