Miele Electric Cooktops

If you're looking for a performance cooktop that's elegant, durable, and easy to care for, then look no further than Miele's range of electric cooktops. Their flat Ceran® surfaces provide even heat, efficient cooking, and easy cleaning.

And with an abundance of convenience and safety features, they truly are masterpieces worthy of any kitchen.

Miele

About Miele

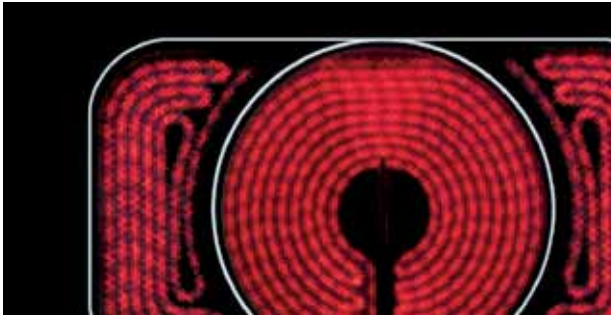

Since 1899, we have been proud to make products that live up to our mantra, "Immer Besser" — a German phrase that translated to English means "Forever Better". To us, "Immer Besser" is more than just an expression; it's our commitment to continually enhance our products through design and innovation. The result is superior quality products that perform both reliably and efficiently.

Miele Electric Cooktops

Miele

Performance

FAST HEATING ELEMENTS

The HiLight radiant heating elements on our electric cooktops provide extremely short heat-up times. It takes just seconds to bring the elements to the desired temperature, saving you time while providing even heat distribution.

ADJUSTABLE COOKING ZONES

Miele's cooking zones allow you to match the size of your cooking zone to the size of your pan. This minimizes heat loss, prevents pan handles from becoming too hot, and provides more even heat distribution. Some models also feature a casserole zone that expands your usable cooking area to fit casserole dishes, oversized pots, or grills and griddles.

DirectSelect Touch Controls

Linear touch controls, located at the front of the cooktop, enables you to select the desired temperature setting with one touch.

Design

SLEEK DESIGN

With the heating elements and the electric controls integrated on one smooth Ceran® surface, our electric cooktops offer sophisticated instrumentation in a minimalist design. The stainless steel frame adds a finished appearance that coordinates with any kitchen design.

TOUCH SENSOR CONTROL

On some models, functions and power levels are controlled by a touch sensor interface that's incredibly easy to operate. All of the electronic components are hidden beneath the cooktop surface, leaving one flat, even surface to work on.

EFFORTLESS CLEANING

The Ceran® surface on all of our electric cooktops makes cleaning a snap. For models that have the controls integrated into the unit, clean-up is even simpler since they have no knobs or dials to clean around.

Quality

SAFETY FEATURES

Residual heat indicators on all of our electric cooktops notify you when elements are too hot to touch. Many models also feature a program lock button, which you can use to prevent inadvertent changes from being made to selected functions and power settings, and a stop and go function that reduces all in-use elements to their lowest setting for times when you are interrupted while cooking, for example to answer the phone.

GERMAN MANUFACTURING

All of our electric cooktops are designed and built by Miele in Germany.

QUALITY CONTROL

All Miele products have been rigorously tested to last at least 20 years. Each product we make goes through a strict end line test before passing quality control.

HAVE QUESTIONS?
Please ask your Miele Chartered Agent for more information or go to **miele.ca**

What is Miele ForeverCare?

Miele provides unique advantages to our customers with a combination of features unparalleled in the appliance category, namely:

Manufacturer-Direct Service.

If you ever have a problem with your Miele machine, it's our own Miele Factory Service Technicians who take care of it. Most problems can be solved on the first visit, as we know the exact model you have and carry the genuine Miele parts you will need.

Extended Warranty from the Manufacturer.

We want you to enjoy a long and trouble-free experience with our machines. In addition to the standard warranty, we have Miele Extended Care Certificates. This direct offer from Miele allows you to increase your hassle free coverage up to ten years. The extended warranty relationship remains directly with Miele, so you can deal with us if you have any issues.

Miele Custom Plans.

The chart below illustrates how you can upgrade the benefits of ForeverCare.

Manufacturer Delivery and Installation.

We want your machine to work perfectly from the first time you use it. So, we offer delivery and installation in your home ourselves, with our fully Miele-dedicated service team. Installation can be organized within 48 hours of ordering through the Miele Customer Care Centre, and your delivery is tracked with GPS so we can provide you with a nearly exact time of delivery.

Miele CareCollection.

To ensure you make the most of your Miele appliance, we've created a range of everyday and specialty products available for purchase. From laundry detergent to dishwasher tablets and variety of cooking accessories, these products are designed specifically for your appliance, ensuring better results and a longer hassle-free lifespan.
