## KEY BENEFITS

### TRADITION

A 110-year old family tradition of crafting superior, groundbreaking products that exemplify 'Immer Besser' - 'Forever Better'. In 2008, Miele also celebrated 80 years of quiet and spotless care for priceless tableware. Miele, the premium German appliance brand.

### VERSATILITY

Every square inch of space is maximized to easily hold up to **16 place settings** and unique items like champagne flutes, oversized bowls and pots and pans. The **world's first third-level 3D cutlery tray**, positioned immediately below a third spray arm, ensures thorough cleaning of each knife, fork and spoon. BrilliantLight uses 4 LED's, which increases visibility during loading and unloading.

### PERFORMANCE

Tested to run for 12,500 hours non-stop, the Diamond's combination of **16 washing programs** operating at temperatures up to 75° Celsius, **3 spray arms and two heavy-duty pumps** mean that dirty dishes don't stand a chance.

Power is not everything though. With its special **SensorWash** capability, the Diamond not only senses how full it is and how dirty the dishes are, it adjusts the way it washes to get sparkling results with the least water possible. Miele combines thorough cleaning with environmental awareness: all our dishwashers are **EnergyStar certified** and use as little as 10 liters of water per load. When the cycle is complete, **the door can open automatically for optimal drying results** using no extra energy.

### DESIGN

Whether you want your dishwasher to stand out, or blend into the surrounding cabinetry, the Diamond **integrated and fully integrated design** options mean that it will fit into any kitchen. The use of the highest quality materials and exhaustive testing in acoustic laboratories enable Miele dishwashers to be seen but not heard.

### CONTROLS

Intuitive **Navitronic touch controls** of the integrated version are ergonomically located on the front of the dishwasher. On fully-integrated models, they are on top of the door, hidden away when it's closed. The Diamond's controls also feature a **digital time remaining display and delay start**.
