Miele S5 Flora

Vacuum Cleaner

All of our German engineered vacuum cleaners are quiet, stylish, and incredibly powerful.

Plus their superior suction, state-of-the-art filters and HEPA certified sealed system trap 99.9% of dust particles.

The Flora full-size vacuum cleaner performs exceptionally well on low to medium pile carpeting as well as on smooth surfaces.

Miele

Comfort handle

The ergonomically designed comfort handle sits easily in the hand, making vacuuming much more enjoyable. The flexible hose attachment makes the vacuum cleaner maneuverable, putting less strain on your wrist.

Ergonomic vacuuming height

Cleaning with your vacuum cleaner set to the wrong height forces you to bend over and can really make your back ache. The telescopic suction tube on a Miele can be adjusted for a comfortable working height so you avoid straining yourself.

Parking attachment

The parking attachment means that you can store the hose and suction tube securely on the vacuum cleaner when it is standing upright. On the Flora, a parking attachment is located on both sides of the vacuum cleaner, making it equally convenient for left and right handed people. It is easy to carry and convenient for storage.

Excellent maneuverability

The three smooth-running 360° castor wheels mounted on steel axles ensure maximum stability and maneuverability for your vacuum cleaner. They are cleverly designed with a travel ramp to help you manoeuvre your vacuum cleaner easily over thresholds and around obstructions.

HEPA-Certified Sealed System

Combined with a 12-stage filtration means the air leaving the vacuum is cleaner than the ambient room air.
