Navigation Instructions

Click the Miele Logo at the top of every page to return to TOC and/or Cover page.

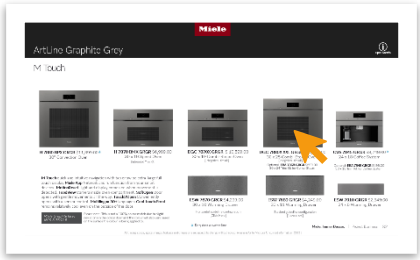

Click here on each page to access Miele's 'Specification Library'

Spec Sheets

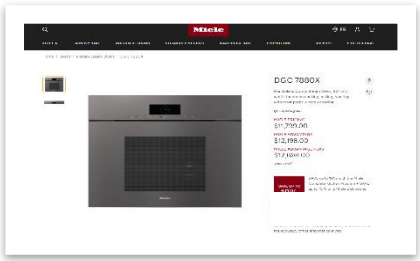

Table of Contents Navigation

In T.O.C. click appliance or description to go to 'Section' or 'Category'

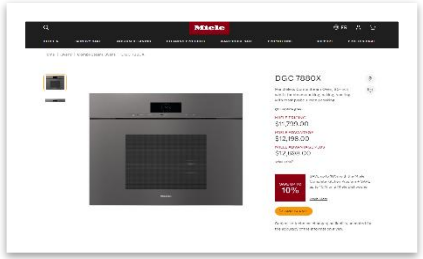

Click on appliance image to open product details page on Miele.ca

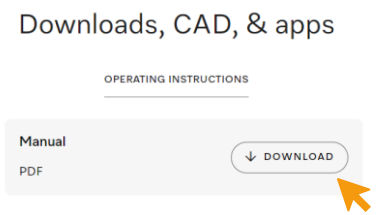

User Manuals

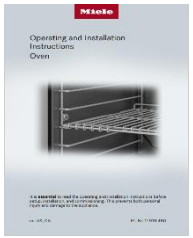

From product details page scroll down to "Downloads, CAD, & apps" click on "Manual"

Scroll to bottom of page to downloads

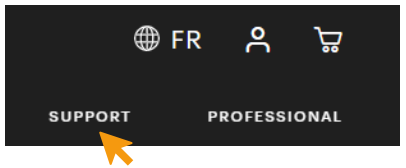

Manual Tip: Use the bookmark feature to quickly locate the Installation Specs within the appliance manual.

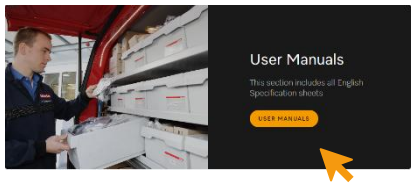

Alternate access to User Manuals

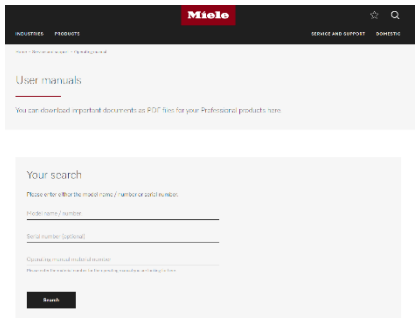

If the Miele User Manual is not available or a discontinued model, go to "Support" located on Miele.ca header and then select "Manuals & Specifications"

Select Manuals & Specifications then scroll to User Manuals

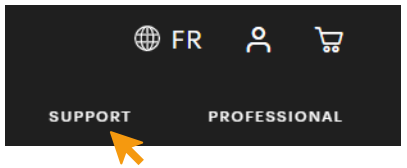

Enter Model Number and scroll down to see results

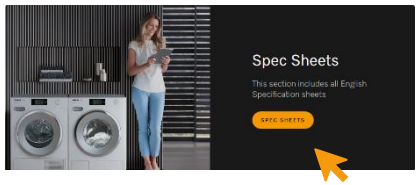

Specification Library

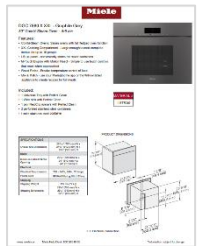

To access "Spec Sheets", go to "Support" located on Miele.ca header and then select "Manuals & Specifications"

Select Manuals & Specifications then scroll to Spec Sheets

Spec sheets provide dimensions, cut-outs, electrical, ventilation, plumbing details etc.

All pricing, codes, specs, images, features and dimensions are subject to change without notice. Always refer to Miele.ca for current information [2026]

Why Miele?

Immer Besser | Forever Better since 1899

A leading edge through quality, durability, sustainability... offering perfect results, ultimate convenience, and timeless design.

Our aim is to build long-lasting appliances of the highest quality, using procedures that are both economically and ecologically sound. Our rigorous ambitions will ensure outstanding performance, efficiency and safety, but also have as little impact on the environment as possible, throughout the lifespan of every appliance.

Meeting the expectations of your homeowners

- Miele tests its domestic appliances for a service life of up to 20 years
- Miele manufactures spare parts for 10 years and keeps in stock for up to 15 years after the end of series production (70,000 parts permanently in-stock)
- Miele offers a warranty extension to a total of 10 years as standard
- Remote service for fewer customer service trips. Remote Updates via App
- To buy Miele is to invest in quality and durability. It's good to know that a Miele appliance represents long term value

We make it possible to save energy and water

- Reduction of electricity consumption of appliances by more than 55% since the year 2000
- Energy-efficient across all product groups
- EnergyStar and EnergyStar Most Efficient designations across multiple categories
- High energy efficiency also in real use with top performance
- 50% of all development expenditures go to energy and resource issues

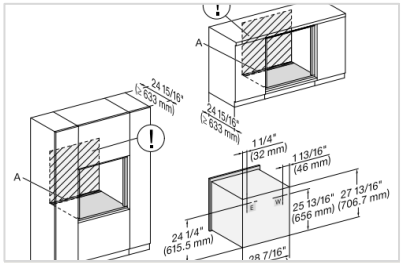

Exceptional construction guarantees maximum reliability and durability

- We manufacture at our own plants – with passion
- We have the highest standards in terms of quality and durability. That's why our home appliances are made largely of metal that is not only resilient but also recyclable
- From foundry work and the production of plastic parts to engine development and electronics – we manufacture a large portion of the components for our products in-house
- Before we purchase raw materials, we test them for compatibility and environmental impact. There are continuous quality checks during production and assembly
- We don't do random tests: Before delivery, each appliance is subjected to comprehensive tests – in accordance with our own demands.
- German engineered and tested to the equivalent of 20 years usage.
- No other brand can claim such a strong commitment to quality, reliability and durability.

Miele is dedicated to producing the best possible products and services with the least impact on the environment, with the ultimate aim to make them 100% carbon-neutral.

EBA 7848 EDST/CLST $599.00
30 x 18 Trim Kit Option

Design Award
CVA 7845

Miele CVA 7845 Coffee is prepared freshly ground according to type and the beans that are selected from one of the three separate inner containers. Due to the demand-oriented automatic descaling and cleaning of milk lines and brewing unit via exchangeable cartridges, manual cleaning is no longer necessary. The illuminated, motor-driven spout adapts via sensor control to the cup heights and centrally dispenses the variety of hot beverages. The milk vessel can be inserted and removed in one movement from the front. All tanks and containers are optimized with an ergonomic design and functionality.
This model comes equipped with DirectWater (plumbed) and can be switched to manual tank fill if a waterline is not available.

Coffee Connoisseurs

Miele coffee beans are organically grown from the Arabica shrub and harvested in the highlands of south America. The beans are sourced from a fair-trade certified organic coffee cooperative and then roasted and blended exclusively for Miele by a private German roaster. Available for purchase on 'Shop' Miele.ca
Black Edition: Café Crema, Espresso, Decaf, One For All.

Requires a water line 💧

All pricing, codes, specs, images, features and dimensions are subject to change without notice. Always refer to Miele.ca for current information [2026]

PureLine Configurations with Warming Drawers & Vacuum Sealer

Spec Sheets

10” Warming Drawer | 10” Vacuum Sealer [Horizontal]

ESW 7670 [9 7/8] $4,299.00

ArtLine

Generation 7000 ArtLine is characterized by handleless glass front panels in obsidian black. Completely flush-mounted with a touch function opens the door gently and effectively. Miele-exclusive technological integrates features like; 'TasteControl", which automatically opens the oven door once cooking is finished to rapidly cool it and 'FoodView', an in-oven camera that can be followed on the Miele app, where users can also remotely adjust multiple functions.

DA 2518 $3,499.00 ⇳
44” Insert Hood Fan | 6” Duct | 500 CFM
(Depth 15 13/16” | 402mm)

Electronic controls, LED lighting, Con@ctivity, Miele@home, WiFi@Conn@ct, Acoustic Package, Run-on time 5/15 min., 10 ply stainless steel grease filter, Grease filter indicator, 3 Power levels + 1 Booster level, Clean Cover (canopy interior), Dishwasher safe filters, Dual action fan, Automatic switch-off feature (after 10 hours)

Features vary by model, consult Miele.ca for specific features for each model.

⇳ **Con@ctivity** is the communication between Miele appliances. All Miele Induction cooktops (excluding Ranges) and many Miele ventilation hood models communicate by Wi-Fi, allowing the hood to automatically turn on its lighting system and adjust the power level. This ensures that the appliance responds to the anticipated level of cooking vapors at an early stage, creating an ideal room climate.

Accessible & Barrier-Free Dishwashers

Spec Sheets

Accessible dishwashers support universal design principles by enhancing accessibility and ease of use for individuals of all ages and abilities. Ideal for inclusive, aging-in-place, and adaptable design. Their reduced installation height can also offer greater flexibility when integrating with contemporary channel cabinetry, helping maintain clean lines and a cohesive kitchen aesthetic.

MasterCool – SommelierSet

Simply perfect for wine connoisseurs – with the unique SommelierSet exclusively from Miele. Prepare fine wines professionally for decanting. Enjoy champagne and white wine from chilled glasses. Drink perfectly conditioned wine even from opened bottles.

MasterCool – FlexiFrame

Holds bottles of all sizes securely. The adjustable wooden bottle racks hold every size of bottle securely. The individual slats can be moved easily to suit every bottle shape. This provides the perfect storage position for your wine.

MasterCool – Push2open

The perfect solution for a handle-free design with the Push2open function open automatically. The opening mechanism can be actuated merely by gently pressing the door. The door then opens gently and allows you to reach inside and open it completely.

Please note: SommelierSet cannot be added or converted within KWT 2612 Vi and KWT 2602 Vi models

Domestic Heat Pump Dryer Technology

Heat Pump Dryer
Closed air circuit - Processed air is dehumidified inside the unit (using refrigerant) Air is heated using refrigerant only giving off 6% moisture **No Venting** required for ease of installation, low maintenance and high efficiency. **60% More efficient than a vented dryer.**

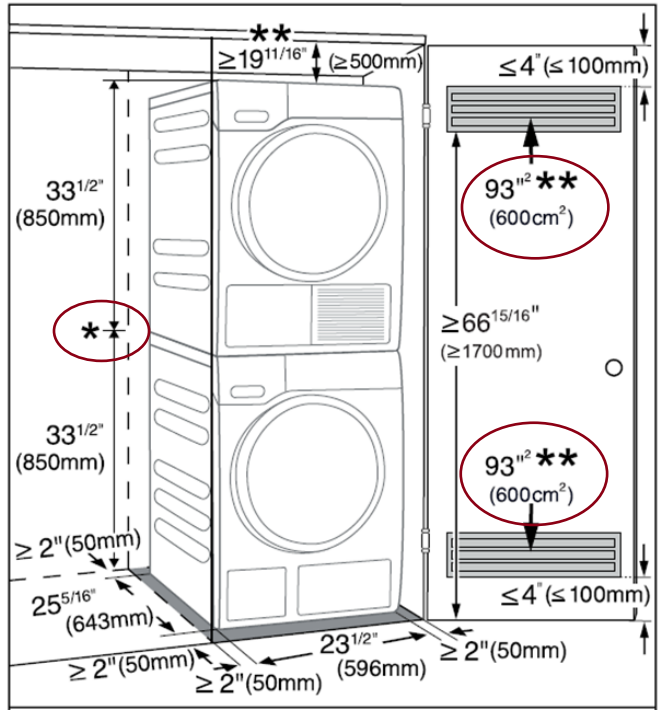

Principle of Operation
- Hot dry air is pumped into drum which absorbs moisture from the laundry.
- The Moisture-laden air passes through filters on the way to the evaporator where the air is cooled in the Coolant Circuit.
- The cooled air passes through a condenser which captures the moisture.
- The reprocessed air (now dry again) is then pumped back into drum.
- This cycle repeats until the load is dry.

Due to the efficiency of Heat Pump technology, a 208V/240V NEMA 14-30 plug is no longer required for the dryer. Use a standard household **120V/15A**. Miele supplies a Nema Adapter w/ every dryer.

Products that make the ENERGY STAR Most Efficient list for 2025 deliver cutting edge energy efficiency along with the latest in technological innovation. They represent the year's very best for energy savings and environmental protection.

*Height w/ stacking kit
WTV502 = 67 3/8" (1711) | WTV502 = 71 1/8" (1806)

** If it is not possible to fulfill the air flow specifications you may have longer drying time.

Domestic Washer Technology

IntenseWash
Uses 2 pumps allowing for energy efficiency and wash performance in less time. Detergent dissolves faster and sprays into the center of the load.

Water Control System
Water level drum sensor and Float switch in drip tray in the base will detect even small amounts of leaked water. Further water intake is stopped if an error is sensed, and water is drained off.

The primary pump fills the drum with detergent and water, settling at the bottom. The secondary pump redistributes the sudzy water to the top of the drum allowing for even distribution and a thorough cleaning.

TwinDos | 2 Phase system
UltraPhase 1 Detergent & UltraPhase 2 Oxygen Bleach automatically dispenses from intergrated cartridges that lasts up to 45 loads and saves approximately 30% in detergent costs.

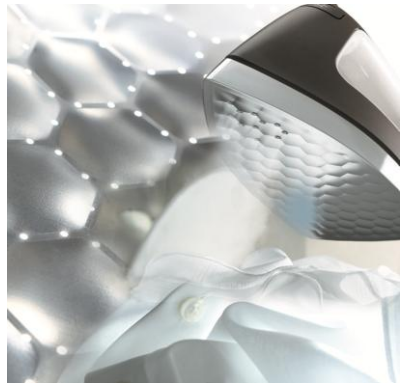

Original | Sensitive | Refresh Elixir

Auto Load Recognition
Weighs the clothes and you program the water and degree of soiling, allowing the right amount of detergent at the right time, to get the right result!

CapDosing | Specialty Detergent Enhansers
Automaticlly dispenses at the right time in the wash process. Pods are made for specific program / clothing. Wool, Sport, Silk, Outdoor gear, Booster, Fabric Softener.

Honeycomb Drum
Soft to the touch: the hexagonal sculptured surface of the drum allows garments to glide on a thin film of water.

ProfiEco Motor
BLPM – Brushless Permanent Magnet Motor 1600 RPM extremely energy efficent, maintenance free due to brushless motor,quiet.

Miele@Moblie app
Android and iOS, remote control w/ SmartStart Notifiction for TwinDos fill level, machine status, Assistat to select the most suitable program.

(596 x 850 x 777)

25 min

Little Giants Features

- M Touch Flex
- 32 Languages
- 96-hour delay start
- Miele App Wi-Fi Connect
- Stackable or Side-by-side
- Tested for 30,000 operating hours
- Residential & Commercial Use
- Operates 8 hours a day / 365 days a year
- 208 / 240 v 30 amps
- Plug type Nema L6-30

NEMA L6-30

Little Giants Dryer

- 4.6 cu. ft.
- Heat Pump technology – Ventless
- 35 Programs 3 Hygienic Programs
- Energy Star rated
- FragranceDos for fresh scented fabrics
- Temperature (F) range 140° - 185°
- 185° / 15-minute hold time
- Heat pump 2x larger than domestic models
- Independent fan drive for faster drying results
- Professional Brush-less Permanent Magnet Motor

Little Giants Washer

- 2.6 cu. ft. / 20 lb. capacity
- CapDos Specialized dispense capsules
- 50+ Wash Programs 14 Hygienic Programs
- 25 min Express wash program
- 49 min. Intensive Wash
- 3 Commercial Shock Absorbers – for smooth running at high speeds
- 3D Sensor: Monitors load imbalances, detects rotational speed
- Perforated rear panel for faster drenching and draining
- Powerful heater elements for heating water quickly
