Navigation Instructions

Click the Miele Logo at the top of every page to return to TOC and/or Cover page.

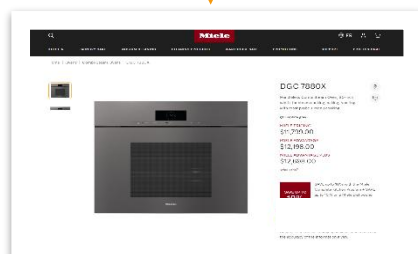

Click here on each page to access Miele's 'Specification Library'  Spec Sheets

Table of Contents Navigation

In T.O.C. click appliance or description to go to 'Section' or 'Category'

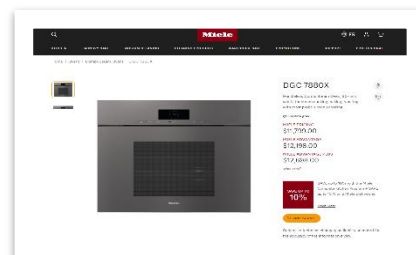

Click on appliance image to open product details page on Miele.ca

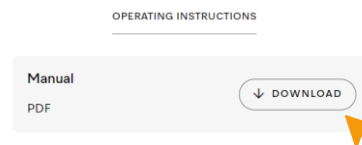

User Manuals

From product details page scroll down to "Downloads, CAD, & apps" click on "Manual"

Scroll to bottom of page to downloads

Downloads, CAD, & apps

Manual Tip: Use the bookmark feature to quickly locate the Installation Specs within the appliance manual.

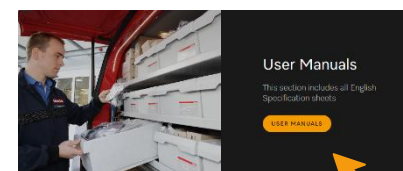

Alternate access to User Manuals

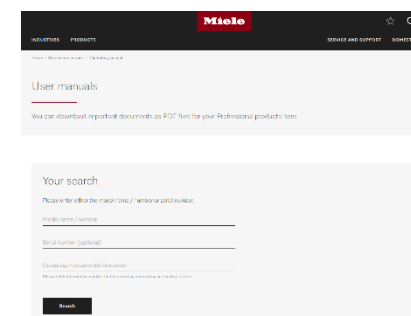

If the Miele User Manual is not available or a discontinued model, go to "Support" located on Miele.ca header and then select "Manuals & Specifications"

Select Manuals & Specifications then scroll to User Manuals

Enter Model Number and scroll down to see results

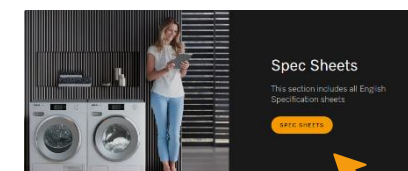

Specification Library

To access "Spec Sheets", go to "Support" located on Miele.ca header and then select "Manuals & Specifications"

Select Manuals & Specifications then scroll to Spec Sheets

Spec sheets provide dimensions, cut-outs, electrical, ventilation, plumbing details etc.

Why Miele?

Immer Besser | Forever Better since 1899

A leading edge through quality, durability, sustainability... offering perfect results, ultimate convenience, and timeless design.

Our aim is to build long-lasting appliances of the highest quality, using procedures that are both economically and ecologically sound. Our rigorous ambitions will ensure outstanding performance, efficiency and safety, but also have as little impact on the environment as possible, throughout the lifespan of every appliance.

Meeting the expectations of your homeowners

- Miele tests its domestic appliances for a service life of up to 20 years
- Miele manufactures spare parts for 10 years and keeps in stock for up to 15 years after the end of series production (70,000 parts permanently in-stock)
- Miele offers a warranty extension to a total of 10 years as standard
- Remote service for fewer customer service trips. Remote Updates via App
- To buy Miele is to invest in quality and durability. It's good to know that a Miele appliance represents long term value

We make it possible to save energy and water

- Reduction of electricity consumption of appliances by more than 55% since the year 2000
- Energy-efficient across all product groups
- EnergyStar and EnergyStar Most Efficient designations across multiple categories
- High energy efficiency also in real use with top performance
- 50% of all development expenditures go to energy and resource issues

Exceptional construction guarantees maximum reliability and durability

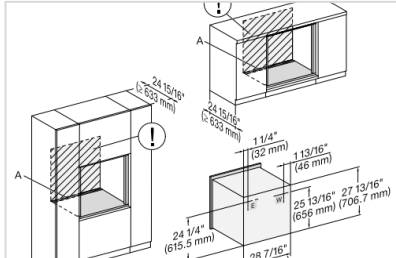

- We manufacture at our own plants – with passion
- We have the highest standards in terms of quality and durability. That's why our home appliances are made largely of metal that is not only resilient but also recyclable
- From foundry work and the production of plastic parts to engine development and electronics – we manufacture a large portion of the components for our products in-house
- Before we purchase raw materials, we test them for compatibility and environmental impact. There are continuous quality checks during production and assembly
- We don't do random tests: Before delivery, each appliance is subjected to comprehensive tests – in accordance with our own demands.
- German engineered and tested to the equivalent of 20 years usage.
- No other brand can claim such a strong commitment to quality, reliability and durability.

Warranty Program

- Standard warranty: 1-year parts and labour coverage (extended to 2 years with Miele-authorized installation)
- Extended warranty: Optional plans expand coverage to 5- or 10-years total
- Miele-managed: All repairs handled directly by Miele, using genuine parts and technicians

Miele is dedicated to producing the best possible products and services with the least impact on the environment, with the ultimate aim to make them 100% carbon-neutral.

Coffee Connoisseurs

Miele coffee beans are organically grown from the Arabica shrub and harvested in the highlands of south America. The beans are sourced from a fair-trade certified organic coffee cooperative and then roasted and blended exclusively for Miele by a private German roaster. Available for purchase on 'Shop' Miele.ca
Black Edition: Café Crema, Espresso, Decaf, One For All.

Requires a water line 💧

 Design Award
CVA 7845

Miele CVA 7845 Coffee is prepared freshly ground according to type and the beans that are selected from one of the three separate inner containers. Due to the demand-oriented automatic descaling and cleaning of milk lines and brewing unit via exchangeable cartridges, manual cleaning is no longer necessary. The illuminated, motor-driven spout adapts via sensor control to the cup heights and centrally dispenses the variety of hot beverages. The milk vessel can be inserted and removed in one movement from the front. All tanks and containers are optimized with an ergonomic design and functionality.
This model comes equipped with DirectWater (plumbed) and can be switched to manual tank fill if a waterline is not available.

PureLine Configurations with Warming Drawers & Vacuum Sealer

10" Warming Drawer | 10" Vacuum Sealer [Horizontal]

ESW 7670 [9 7/8"] \$4,299.00
30 x 10 Warming Drawer

EVS 7670 [9 7/8"] \$6,999.00
30 x 10 Vacuum Sealer

10" Warming drawer and 10" Vacuum Sealer is recommended below all 30 x 19 [18 7/8" tall] appliances and can be combined horizontally with all 30 x 19 lifestyle ovens. (Speed, Combi-steam and Coffee) 30 x 19 Models: DGC 7870, DGC 7875, DGC 7470, H 7870 BM, H 7670 BM, H 7270 BM. **Note: Shelf support is NOT required between the above listed models and the ESW 7670 or EVS 7660.**

11" Warming Drawer [Stacked]

ESW 7680 [10 7/8"] \$4,299.00
30 x 11 Warming Drawer

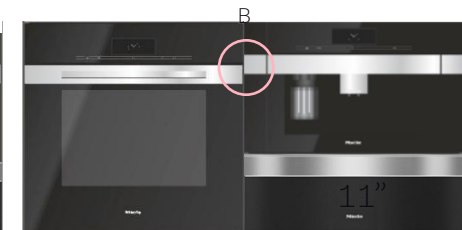

11" Warming drawer is recommended at the bottom of any 30" wide vertical stack.
Note: Shelf support is required between a 30" Convection oven and ESW 7680 warming drawer.

ESW 6380 FB Panel Ready optional [[Click Here](#)]

NOT RECOMMENDED:

ALL warming drawers and vacuum sealers placed below any 24 x 18 [17 15/16" tall] appliances with a 30" Trim kit will not line up horizontally with a 30" Convection oven. [See image A for 10" drawers and image B for 11" drawer.]

ArtLine

ArtLine with its minimalistic approach offers an intuitive touch operation, with a handleless design.

SoftOpen: gently effective

SoftOpen ensures that the door opens gently until it has moved into its final position. The opening mechanism of a kitchen appliance has never been so well executed.

Generation 7000 ArtLine is characterized by handleless glass front panels in obsidian black. Completely flush-mounted with a touch function opens the door gently and effectively. Miele-exclusive technological integrates features like; 'TasteControl', which automatically opens the oven door once cooking is finished to rapidly cool it and 'FoodView', an in-oven camera that can be followed on the Miele app, where users can also remotely adjust multiple functions.

 **Con@ctivity** is the communication between Miele appliances. All Miele Induction cooktops (excluding Ranges) and many Miele ventilation hood models communicate by Wi-Fi, allowing the hood to automatically turn on its lighting system and adjust the power level. This ensures that the appliance responds to the anticipated level of cooking vapors at an early stage, creating an ideal room climate.

Electronic controls, LED lighting, Con@ctivity, Miele@home, WiFi@Conn@ct, Acoustic Package, Run-on time 5/15 min., 10 ply stainless steel grease filter, Grease filter indicator, 3 Power levels + 1 Booster level, Clean Cover (canopy interior), Dishwasher safe filters, Dual action fan, Automatic switch-off feature (after 10 hours)

Features vary by model, consult Miele.ca for specific features for each model.

MasterCool –
SommelierSet

MasterCool – FlexiFrame

MasterCool – Push2open

Simply perfect for wine connoisseurs – with the unique SommelierSet exclusively from Miele. Prepare fine wines professionally for decanting. Enjoy champagne and white wine from chilled glasses. Drink perfectly conditioned wine even from opened bottles.

Holds bottles of all sizes securely. The adjustable wooden bottle racks hold every size of bottle securely. The individual slats can be moved easily to suit every bottle shape. This provides the perfect storage position for your wine.

The perfect solution for a handle-free design with the Push2open function open automatically. The opening mechanism can be actuated merely by gently pressing the door. The door then opens gently and allows you to reach inside and open it completely.

Please note: SommelierSet cannot be added or converted within KWT 2612 Vi and KWT 2602 Vi models

Laundry Care Products

Domestic Heat Pump Dryer Technology

Heat Pump Dryer

Closed air circuit - Processed air is dehumidified inside the unit (using refrigerant) Air is heated using refrigerant only giving off 6% moisture **No Venting** required for ease of installation, low maintenance and high efficiency. **60% More efficient than a vented dryer.**

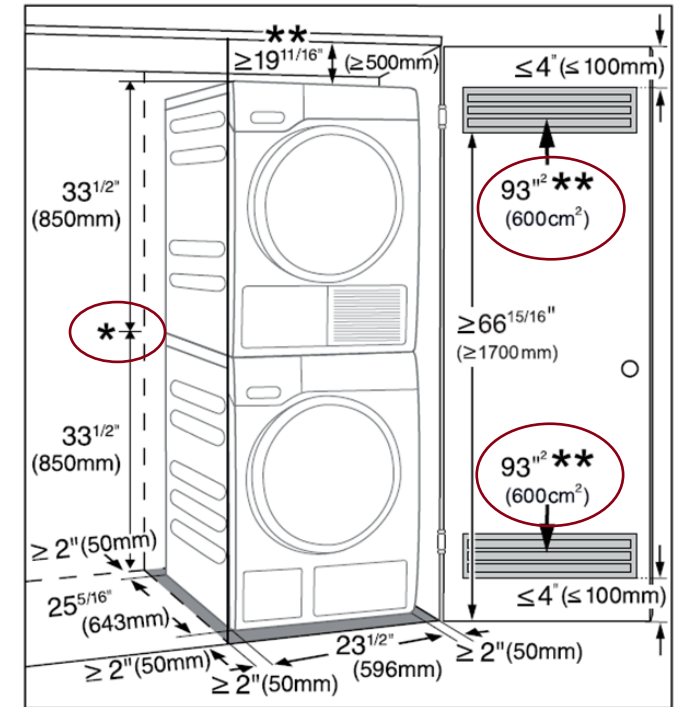

Principle of Operation

- Hot dry air is pumped into drum which absorbs moisture from the laundry.
- The Moisture-laden air passes through filters on the way to the evaporator where the air is cooled in the Coolant Circuit.
- The cooled air passes through a condenser which captures the moisture.
- The reprocessed air (now dry again) is then pumped back into drum.
- This cycle repeats until the load is dry.

Due to the efficiency of Heat Pump technology, a 208V/240V NEMA 14-30 plug is no longer required for the dryer. Use a standard household **120V/15A**. Miele supplies a Nema Adapter w/ every dryer.

Products that make the ENERGY STAR Most Efficient list for 2025 deliver cutting edge energy efficiency along with the latest in technological innovation. They represent the year's very best for energy savings and environmental protection.

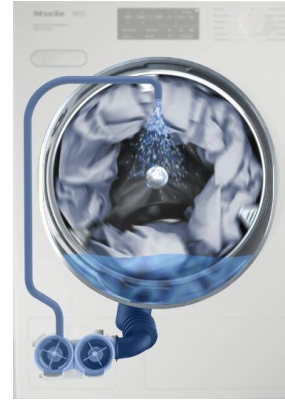

*Height w/ stacking kit
WTV502 = 67 3/8" (1711) | WTV502 = 71 1/8" (1806)

** If it is not possible to fulfill the air flow specifications you may have longer drying time.

Domestic Washer Technology

The primary pump fills the drum with detergent and water, settling at the bottom. The secondary pump redistributes the sudsy water to the top of the drum allowing for even distribution and a thorough cleaning.

IntenseWash

Uses 2 pumps allowing for energy efficiency and wash performance in less time. Detergent dissolves faster and sprays into the center of the load.

Water Control System

Water level drum sensor and Float switch in drip tray in the base will detect even small amounts of leaked water. Further water intake is stopped if an error is sensed, and water is drained off.

Auto Load Recognition

Weighs the clothes and you program the water and degree of soiling, allowing the right amount of detergent at the right time, to get the right result!

TwinDos | 2 Phase system

UltraPhase 1 Detergent & UltraPhase 2 Oxygen Bleach automatically dispenses from integrated cartridges that lasts up to 45 loads and saves approximately 30% in detergent costs.

Original

Sensitive

Refresh Elixir

CapDosing | Specialty Detergent Enhancers

Automatically dispenses at the right time in the wash process. Pods are made for specific program / clothing. Wool, Sport, Silk, Outdoor gear, Booster, Fabric Softener.

Honeycomb Drum

Soft to the touch: the hexagonal sculptured surface of the drum allows garments to glide on a thin film of water.

ProfiEco Motor

BLPM – Brushless Permanent Magnet Motor 1600 RPM extremely energy efficient, maintenance free due to brushless motor, quiet.

Miele@Moble app

Android and iOS, remote control w/ SmartStart Notification for TwinDos fill level, machine status, Assistat to select the most suitable program.
