Miele ForeverCare

Welcome to Miele

IMMER BESSER (forever better) – our pledge

When our two great grandfathers founded the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be "better" than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being "Immer Besser" throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well as by producing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Dr. Markus Miele

Dr. Reinhard Zinkann

* Please visit www.miele-sustainability.com for more information on our efforts and guiding principles

IMMER BESSER (Forever better)

Our pledge

There are many good reasons for choosing Miele. Here are just six of them. Since the company was founded in 1899, Miele has remained true to its "Immer besser" brand promise. This means that we will do all that we can to be forever better than our competitors and forever better than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

Miele quality

For more than 100 years it has been a proven adage that you can trust Miele and rely on our appliances. We are the only manufacturer in our branch of industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years' use. Once a Miele, always a Miele: Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking to the future, we promise not to entertain any compromises when it comes to the dependability and durability of our appliances.

Miele technology

Miele stands for excellent results combined with the lowest possible energy consumption. This applies to the hygienic and gentle care of your laundry, your flooring and your dishes as well as when conjuring up exquisite culinary delights. The key to this is a wealth of innovative features available only from Miele. This is borne out by numerous first places in leading product tests conducted around the world.

Miele convenience

Whether conventional rotary switch, discreet sensor controls or a high-resolution touch display like the one on your smartphone: operating a Miele is both easy and fun. Add to this a multitude of convenient and reliable automatic programs and a great love of detail – success is guaranteed – on board both laundry and kitchen appliances. Make life easier for yourself with Miele.

Miele design

Miele believes in clean lines and timeless elegance. Nowhere else will you find such a comparable range of built-in kitchen appliances, with consistency in design lines and colour options, to suit the most diverse of interior designs and kitchen furniture fronts. Great care is taken to coordinate appliance design across the range. Whatever the style of your kitchen, Miele is the perfect match.

Miele service

Miele customers enjoy preferential treatment, thanks to our fast and efficient after-sales service operation which has been voted best in its branch of industry many times over. If you need personalized instructions on appliance use or professional cleaning of your appliances, Miele will gladly make a home visit. We will always be there for you. That's a promise!

Miele brand

In many countries, Miele is the most coveted brand in its branch of industry. In its German home market, Miele was even voted 'best brand ever' in 2013, across all product branches. And the ownership of products from such a brand reveals much about its users: Miele customers have high expectations for the performance and the environmental friendliness of their domestic appliances. People who buy Miele are quality conscious and have style.

The quality tests of Miele dishwashers

Quality is very high on Miele's agenda. That is the reason why special demands are placed on production and the materials used.

Performance test

In addition to cleaning and drying results, the acoustic values and consumption values for each program are measured against the high Miele quality pledge in a performance test.

Basket load test

To create realistic test conditions, baskets are heavily laden: 3 kg in the 3D+ cutlery tray, 10 kg in the upper basket and 20 kg in the lower basket. Under these extreme loads, baskets are automatically pulled out and pushed in 100,000 times.

Door endurance test

During the long life of an appliance, the dishwasher door in particular is subjected to considerable strain. An endurance test simulates this strain: with a special device the dishwasher door is opened and closed automatically 100,000 times.

The impact test for the cutlery basket

The impact test enables Miele to ensure that the cutlery basket can withstand the strain of everyday use: The cutlery basket is loaded with test cutlery (14 cutlery sets of 4 pieces each) and drops onto a hard surface from a height of one metre.

Ecological responsibility

At the heart of everything we do

The responsibility for our environment has long been a tradition at Miele for more than 110 years. Our natural environment is the foundation of our existence which we want to protect for us and generations to come. True to our motto "Immer besser" (forever better), we develop domestic appliances for customers which reduce the burden on the environment and on natural resources. This begins with the selection of materials, ensuring efficient production and ends, after a long machine life, in environmentally friendly recycling.

Our environmental philosophy pays off: Miele's highly-efficient domestic and built-in appliances ensure excellent performance and set standards in terms of low water and electricity consumption values too.

Hot water connection

All Miele EcoFlex dishwashers also have a hot water connection up to 60°C.

Which appliance would you like?

The wide variety of Miele dishwashers

Dishwasher types

Built-under dishwashers

Ideal as a replacement appliance in an existing kitchen.

Integrated dishwashers

The appliances can be fitted with an individual furniture panel or a front panel in stainless steel with CleanTouch Steel finish.

Fully integrated dishwashers

The entire front of the appliance is concealed either behind cabinet panelling or a Miele front made from stainless steel with CleanTouch Steel finish.

Handleless dishwashers

Dishwashers with Knoch2open for kitchens completely without handles.

The range

High toe-kick dishwashers

(81 cm high, 60 cm wide)

With a built-under height from 81 cm, this slightly smaller cavity offers a solution for non-traditional kitchen designs.

Standard dishwashers

(85 cm high, 60 cm wide)

These appliances offer exceptional height in the upper basket: the deep basket offers versatility and great loading options.

Extra narrow dishwashers (Slimline)

(81 cm high, 45 cm wide)

Ideal for households where space is at a premium, but still requiring everything a Miele dishwasher has to offer.

Which convenience features would you like?

The product highlights of Miele dishwashers*

QuickIntenseWash

An unbeatable combination: the new QuickIntenseWash program and the perfectly matching UltraTabs Multi achieve the best possible cleaning and drying results on normally dirty dishes in 58 minutes. These specially developed tabs only take two to three minutes to dissolve. This means that the cleaning ingredients are available right at the beginning of the program. The result: excellent cleaning performance despite shorter rinse times.

Exclusive
to Miele

Patented¹ 3D+ cutlery tray

More flexibility: the middle section with hinged row of spikes can be lowered, offering space for large items.

New Miele basket design

Maximum flexibility and convenience: providing perfect loading conditions, positioning options for dishes and cleaning results.

Best in Class Efficiency

Miele EcoFlex dishwashers have been designated in the category of Most Efficient ENERGY STAR certified products. Products that have earned this designation demonstrate superior energy efficiency performance and reduce your carbon footprint.

Exclusive
to Miele

Miele@Mobile App

Use your smartphone or tablet to download the Miele@Mobile app and connect remotely to your Miele dishwasher. Monitor your dishwasher's progress, set the start time, monitor the cycle time and order Miele dishtabs while on the go.

Exclusive
to Miele

Knock2open²

The appliance can be perfectly integrated into a handleless kitchen – the door opens automatically after two knocks.

What do the icons mean?

All symbols for built-under and integrated dishwashers at a glance

Charts on the following pages contain detailed information on Miele's freestanding, built-under and integrated dishwashers. In general, Miele products have many different functions and characteristics.

Icons of the most important features directly above the product ensure differentiation at a glance. For a quick overview you will find on this page a short explanation of all symbols used.

Sound emissions
States sound emissions in decibels (dB).

The quietest dishwasher has sound emissions of only 42 dB. The highest value is 46 dB.

Cutlery cleaning
Shows where the cutlery can be placed for cleaning.

The height, width and depth of the 3D+ cutlery tray¹ can be adjusted.

Every item of cutlery is separated, food deposits are completely removed and the cutlery dried perfectly.

The cutlery basket fits in any position over the front spikes.

QuickIntenseWash
Indicates if the appliance features the QuickIntenseWash program.

Best rated cleaning performance in less than one hour with Miele UltraTabs Multi.¹

Perfect GlassCare²
Shows if the appliance features Perfect GlassCare.

This patented² technology ensures that your glasses are cleaned gently.

AutoOpen drying⁴
Shows if the appliance has AutoOpen drying.

The dishwasher door opens automatically at the end of a program.

BrilliantLight⁶
Shows if the appliance is illuminated from the inside.

4 Power LEDs for perfect illumination of the inner cabinet.

¹) Confirmed by TÜV Rheinland: "the cleaning index of 1.14 measured in the QuickPowerWash or 'QuickIntenseWash' program combined with Miele UltraTabs Multi equates to the best possible A cleaning performance category (reference machine tested with IEC Type B detergent)."

²) Patent: EP1080681B1

⁴) Patent: EP 2120671B1, DE 102007008950B4

⁵) Patent: EP 1457153B1

⁶) Patent: EP 2233061B1

Useful information

The glossary of Miele dishwashers*

3D+ cutlery tray¹

The versatility of the intelligent 3D+ cutlery tray is a key feature. Width, height and depth are adjustable to suit any type of load. Thanks to hinged rows of spikes in the centre section, there is more space for large utensils such as salad spoons or kitchen knives. The adjustable side sections even allow you to position stemware in the upper basket. Additional flexibility for perfect cleaning results.

AutoClose

The Miele AutoClose function closes the dishwasher door automatically and very gently. This combines convenience with elegance, creating an almost magical moment in kitchen life. A slight contact between the door and the appliance is all it takes to activate the motorized door closing feature.

AutoOpen drying²

The dishwasher door opens a fraction automatically at the end of a program cycle. This allows fresh, dry air to enter the dishwasher, and even challenging items such as plastic bowls and glassware are perfectly dried. A special air ducting protects the worktop from moisture.

BrilliantLight³

The patented³ door control automatically lights up 4 powerful LEDs when the dishwasher is opened. The 4 LEDs illuminate the interior with brilliant light. The area in front of the dishwasher is also well lit, significantly improving loading and unloading.

ComfortClose

Experience how easily the Miele door opens and closes. The door remains in the position of your choice.

EcoFeedback

Dishwashers from Miele simplify your everyday tasks and allow you to wash dishes environmentally friendly. When you select a program, the EcoFeedback function displays the estimated water and electricity consumption. This allows you to select the option which is best for the environment. You can view the actual consumption values in the display at the end of the program.

Energy efficiency

The energy label provides information at a glance on the running costs and performance of a dishwasher. Miele appliances combine perfect cleaning and drying results with very low electricity and water consumption:

- Annual energy consumption: 199 – 230 kWh, depending on model
- Water consumption: As low as 6.4 l per cycle, depending on model

Best performance combined with low consumption.

ExtraQuiet

The Miele ExtraQuiet program washes your dishes very quietly with sound emissions of only 38 dB (A). Ideal for open-plan kitchens and when the dishwasher is run overnight.

FlexiTimer with EcoStart

Miele dishwashers are even smarter with EcoStart. With this function you can protect the environment and make use of time variable rates, leaving the selection of the lowest electricity rates for the particular running time to your appliance. You can program three different rates and only have to determine the latest possible finish time. The dishwasher will choose the most economical starting time within the time window provided.

Fresh water dishwashers using as little as 6.4 l

Miele dishwashers rely solely on fresh water and in the Normal program, can wash dishes with as little as 6.5 l of water – much less than the contents of a sink. With this feature, Miele has reduced water consumption by 85% over the last 30 years.

High installation

Miele dishwashers meet you at eye level: all built-under, integrated and fully integrated dishwashers from Miele can be installed in your kitchen at a convenient raised working height. The benefit: Dishes can be loaded and unloaded while standing up in an ergonomic and convenient position. Easy on the back without having to bend.

Hot water connection

All Miele dishwashers can be connected to a hot water supply with a temperature of up to 60°C.

* Features depend on model

Knock2open⁴

Not wizardry, just Miele: Knock2open turns dishwashing into a magical experience while delivering the perfect solution for handleless kitchen designs. By tapping the front of the fully integrated Miele dishwasher twice, the door opens by about 10 cm completely automatically using a clever opening mechanism.

Miele@Mobile App

The Miele@mobile app offers the opportunity to control all connected Miele domestic appliances fast and simply from a smartphone or tablet PC. This allows direct access to appliances and the ability to check the machine's status or select functions. Simply download the app from your app store.

New Miele basket design

The new basket design is perfectly thought-out in every detail and offers unique solutions. There is a space for every item to ensure it is cleaned perfectly. The colour-coded FlexAssist parts indicate which elements are moveable and feature small symbols. This allows you to use the flexible baskets conveniently and with ease. Integrated silicone padding in the FlexCare glass holder provides a stable and secure hold for delicate stemware.

Perfect GlassCare⁶

Soft water will clean dishes thoroughly but has an aggressive effect on glass. To counter this, Miele dishwashers feature Perfect GlassCare technology. It ensures that your glasses are washed gently – so you can enjoy them for many years.

QuickIntenseWash

An unbeatable combination: the new QuickIntenseWash program and the perfectly matching UltraTabs Multi achieve the best possible cleaning and drying results on normally dirty dishes in 58 minutes. These specially-developed tabs only take two to three minutes to dissolve. This means that the cleaning ingredients are available right at the beginning of the program. The result: excellent cleaning results.

Reduced load

Using automatic load recognition, Miele dishwashers automatically detect the amount of dishes in the cavity and adjust water and electricity consumption accordingly. Thanks to this function, there is no longer any need to wait until a dishwasher is fully loaded.

SensorDry⁹

The ambient temperature in the kitchen and the size of the load in the dishwasher can affect the drying process. In the Normal program, SensorDry ensures perfect drying results even under unfavourable conditions.

Sound emissions

Miele dishwashers operate at particularly quiet noise levels from 38 dB (A) and deliver consistently perfect results. This is significantly more quiet than a normal conversation.

TimeControl

Everything under control at a glance: the useful LED indicators on fully integrated dishwashers show immediately when the program has finished. An hour before the end of the cycle, the LEDs will switch off from left to right at 20-minute intervals. At the end of the cycle, AutoOpen opens the door to the ajar position. TimeControl is ideal for all types of built-in situations, including eye-level installations and a flush mounted plinth.

Touch on metal

Miele's new operating philosophy offers convenience in a class of its own. It combines a high-quality flush design with an intuitive navigation interface from left to right. The embossed controls of the stainless steel fascia panel are extremely easy to use and the settings are displayed in plain text. The smooth surface of the elegant control panel is particularly easy to clean.

Miele ForeverCare

Delivery, Installation, Customer Service

Miele ForeverCare

With Miele ForeverCare, you get a guarantee. A guarantee that our commitment to you extends far beyond the point of purchase. Rather, we'll provide unparalleled service throughout the very long life of your machine. We are confident in offering you exceptional customer service.

Visit The Miele Gallery

Miele Galleries are open to the public to provide the complete Miele experience and are located in four cities across Canada: Montreal, Toronto, Calgary and Vancouver.

What is Miele ForeverCare?

Miele provides unique advantages to our customers with a combination of features unparalleled in the appliance category, namely:

Manufacturer-Direct Service

If you ever have a problem with your Miele machine, our own Miele Factory Service Technicians will take care of it. Most problems can be solved on the first visit, as we know the exact model you have and carry the genuine Miele parts you will need.

Extended Warranty from the Manufacturer

We want you to enjoy a long and trouble-free experience with our machines. In addition to the standard warranty, we have Miele Extended warranty. This direct offer from Miele allows you to increase your hassle-free coverage up to 10 years. The extended warranty relationship remains strictly with Miele, so you can deal directly and exclusively with us if you have any issues.

Miele Custom Plans

The chart below illustrates how you can upgrade the benefits of ForeverCare.

Manufacturer Delivery and Installation

We want your machine to work perfectly from the first time you use it. So, we offer delivery and installation in your home ourselves, with our Miele-dedicated service team. Installation can be organized within 48 hours of ordering through the Miele Customer Care Centre, and your delivery is tracked with GPS so we can provide you with a near exact time of delivery.

Miele CareCollection

To ensure you make the most of your Miele appliance, we've created a range of everyday and specialty products available for purchase. From laundry detergent to dishwasher tablets and a variety of cooking accessories, these products are designed specifically for your appliance, ensuring better results and a longer, hassle-free lifespan.
