Welcome to Miele

IMMER BESSER (Forever Better) – our pledge

When our two great grandfathers were in the process of founding the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be "better" than the rest.

Numerous best-in-class awards and certificates attest to the fact that Miele has continued to renew its commitment to being "immer besser" throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies that have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally-friendly decision. We ensure this by using methods of production that save resources and by manufacturing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.*

As directors and co-proprietors of the fourth generation of our business, we promise you that this will not change.

"Immer Besser" (Forever Better)

Our Brand Promise

There Are Many Good Reasons For Choosing Miele.

Since the company was founded in 1899, Miele has remained true to its "Immer Besser" (Forever Better) brand promise. This means that we will do all that we can to be "Immer Besser (Forever Better) than our competitors and "Immer Besser" (Forever Better) than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

Miele Quality

Over the last 100 years, Miele has successfully earned the trust of consumers around the globe. Miele is the only manufacturer in the industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years of use. Once a Miele, always a Miele. Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking to the future, we promise not to entertain any compromises when it comes to the dependability and durability of our appliances.

Miele Technology

Miele believes in achieving the best results while using the least amount of energy possible. This simple principle applies to all Miele categories - whether cooking or cleaning. The key is a wealth of innovative features that yield the best results and support low energy consumption. As a world-wide technology leader, achieving top scores in both performance and efficiency tests, Miele is always looking towards the future needs of tomorrow's consumer.

Miele Convenience

Whether conventional rotary switch, discreet sensor controls or a high-resolution touch display like the one on your smart phone, operating a Miele is both easy and fun. Add to this a multitude of convenient and reliable automatic programs in both laundry and kitchen appliances. Make life easier for yourself with Miele!

Miele Design

Clean lines and a European-inspired look define Miele appliances, creating a timeless and elegant design. Nowhere else will you find such a comparable range of matching built-in kitchen appliances that suit even the most diverse interior designs. Great care was taken by the Miele design team to coordinate appliance design across the entire product range, making Miele appliances the perfect choice for any home.

Miele Service

Since 1899, Miele has been dedicated to creating extraordinary products that live up to our mantra, "Immer Besser" – a German phrase meaning "Forever Better". With ForeverCare, we've applied this same philosophy to our customer care practices. But ForeverCare is more than just a concept – it's a guarantee. A guarantee that our commitment to you will extend far beyond the point of purchase. Rather, we'll provide unparalleled service throughout the very long life of your machine. From payment, to delivery, to installation, to service we'll make sure your needs are always well taken care of.

Miele Brand

In many countries, Miele is the most coveted brand in its industry. In its home market in Germany, Miele was even voted "Best Brand Ever" in 2013 across all product categories. Miele customers have high expectations for the performance and the environmental friendliness of their household appliances. This is a reflection of the standard of excellence that Miele holds itself to. People who choose Miele care about quality and are design-conscious.

Miele European Refrigeration Assortment Overview

Miele offers best-in-class appliances with particular highlights to refrigerate, store and keep food fresh, under optimum conditions. From built-in to freestanding to specialized refrigeration appliances – Miele offers a wide variety of configurations!

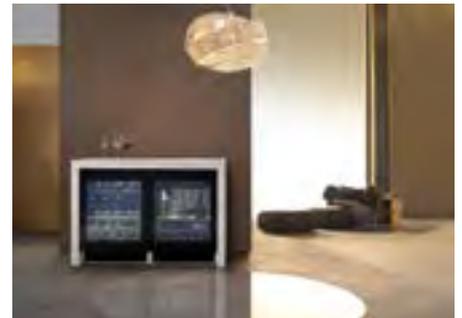

Refrigerators

Miele refrigerators are designed to keep your groceries fresh in an efficient and well organized way. Intelligent PerfectFresh compartments guarantee that food is kept fresh. Our 24"-wide KS 37472 iD built-in full fridge is a great addition to any kitchen, and can be easily combined with the 24"-wide FNS 37492 iE for a perfect fully-integrated design.

Bottom Mount Fridge Freezers

These appliances offer plenty of storage space for fresh and frozen food. Miele fridge-freezer combinations combine convenient storage of fresh food as well as frozen food in one appliance. Choose a free-standing 24" or 30" bottom-mount, or select a built-in bottom-mount appliance for a sleeker integrated look.

Freezers

Miele freezers are powerful and efficient, and exemplary in terms of organization and functionality. The built-in 24"-wide FNS 37492 iE integrates perfectly with the KS 37472 iD, creating a total 48"-wide counter-depth configuration.

Wine Storage Systems

Miele wine storage systems provide the optimum storage conditions for your wine collection. With individually-controlled temperature zones for different types of wine, your reds and whites are guaranteed professional treatment. Miele wine storage systems are not just professional equipment for wine connoisseurs, but are also a elegant designer piece for your home.

Refrigeration Design Options

Freestanding Appliances

Freestanding appliances offer versatility and easy installation in any kitchen, with or without a full kitchen renovation.

Built-In Appliances

If you would like to integrate your refrigeration appliance into the design of your kitchen, then we recommend a built-in appliance. Built-in appliances can be equipped with a kitchen cabinet panel or a Miele stainless steel front panel and fit perfectly into your kitchen design.

Under-Counter Appliances

Miele under-counter wine storage systems are the perfect way to elegantly store and display a selection of wines.

Ultimate Freshness with PerfectFresh

Fresh food is the basis for wholesome and healthy living. Fruit and vegetables should be consumed as crisp and fresh as when purchased. But who has the time to buy ingredients fresh every day?

Apart from the quality of the food at the point of purchase, the right storage conditions are equally as important. Storage conditions determine how fresh, tasty and healthy food still is when preparing it for consumption. The solution: PerfectFresh.

Clever Cooling – Healthy Eating

PerfectFresh is the synonym for innovative food storage at Miele – a special cooling zone in Miele refrigerators which offers ideal storage conditions for a variety of foods. Many types of fruit and vegetables, meat, fish and dairy products remain fresh for considerably longer in the PerfectFresh zone than in a conventional refrigerator. At a temperature of between 0°C and 3°C, as well as ideal air-humidity levels, even perishable food can be stored in ideal conditions and retain its freshness.

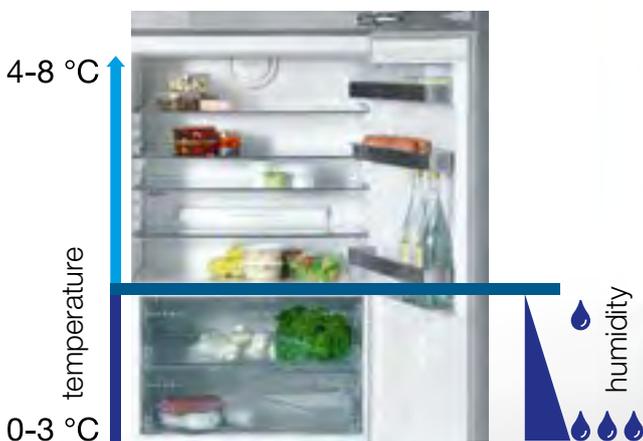

Dry Compartment:

In the dry compartment, meat, fish and almost all dairy products are stored in ideal conditions: the temperature is between 0°C and 3°C. When stored in the dry compartment, many food items are kept fresher.

Humidity Controlled Compartment:

The PerfectFresh humidity-controlled compartment has been designed specifically for storing fresh fruit and vegetables which require high humidity levels for perfect storage conditions. A storage temperature between 0 °C and 3 °C and an air humidity of up to 90%* ensure that your food remains fresh for considerably longer.

Dry and Humidity-Controlled Compartment

Food Stays Fresh Longer

Foods such as meat, fish and dairy products are stored under ideal conditions in the dry compartment. The low temperature of 0 °C to 3 °C ensures that your food items stay fresh longer without losing their taste. You therefore save time and money for the nicer things in life.

Tip: store covered or wrapped food in the dry compartment. The moisture in the food is retained, flavours are not lost and odours are not transferred from one item to another.

Food Remains Fresher than in a Conventional Refrigerator

The humidity-controlled compartment is perfect for storing fruit and vegetables. Stored at low temperatures and high humidity levels, your food remains fresh for longer.

Filling the drawer with fresh fruit and vegetables creates humidity which is maintained thanks to its innovative Miele design. Fruit and vegetables will always be kept fresh – crisp and tasty as if straight from the market. Stored inside the humidity-controlled compartment, vitamins, texture and taste are retained longer.

If required, this compartment can be turned into a dry compartment by adjusting the humidity level using the slide control

Tip: place fruit and vegetables in their packaging in the drawer to allow humidity to develop. To ensure that a sufficient humidity level develops, the compartment should always be well stocked.

* Storage in full Perfect Fresh compartment and market-fresh produce

Efficiency and Sustainability

Miele refrigerators and freezers are not only market leaders when it comes to function, innovation and design, but equally when it comes to energy efficiency ratings. With its current refrigeration lineup, Miele demonstrates that high performance and energy-saving can be achieved simultaneously. Miele invests a great deal in the continuous development of modern technologies such as the optimization of the refrigeration circuit and insulation. Even Miele flagship appliances are extremely economical. With an appliance in use 24 hours a day, every day over many years, this benefit goes straight to your pocket and is gentle on the environment. Miele refrigerators and freezers are always an excellent choice – for your home and the environment.

Miele Wine Storage Systems

Perfect Wine Storage Solutions

For true connoisseurs, the enjoyment of wine begins with the selection of the wine itself. The length of time you can enjoy its rich flavour depends upon how it is stored at home. The correct storage conditions of wine have a direct effect on its shelf life. A wine storage system from Miele offers ideal conditions for the storage of the finest wine.

Optimum Temperature Control

Depending on the variety, you can set the temperature of several zones precisely. This allows you to simultaneously store different wines at the optimum temperature. When storing wine over long periods of time, storage facilities must meet specific demands in terms of ambient temperature. Miele wine storage systems offer ideal ambient conditions.

Maximum Versatility

Adjustable bottle racks made from premium beech wood store all your bottles of wine securely in place. The individual wooden racks are easy to adjust to suit the size of the bottles.

Particularly Eye-Catching

The versatile free-standing appliances integrate easily into any surrounding. With the professional SommelierSet, the wine storage system becomes an eye-catching design piece.

PerfectFresh

PerfectFresh

PerfectFresh

Product Features

PerfectFresh

Apart from the quality of the food at the time of purchase, the right storage conditions are also important. Storage conditions decide how fresh, tasty and healthy food still is when preparing it for consumption. PerfectFresh is the solution to achieving the perfect storage conditions for fresh produce to retain vitamins, nutrients ... and flavours up to 3x longer !

Exclusive to Miele

FlexiLight

Light sources can be positioned individually depending upon how each shelf is filled for perfect glare-free lighting.

NoFrost

Manual defrosting is no longer needed; circulated air prevents icing up on frozen food.

DynaCool

Uniform distribution of temperature is achieved by using a ventilator to ensure excellent circulation and distribution of cold air.

Exclusive to Miele

ComfortClean

For fast cleaning, the high-quality shelves on the inside of the door can be cleaned simply in the dishwasher.

Exclusive to Miele

VarioBord

Multi-purpose serving trays can be hooked and unhooked in one step, allowing you to go from the fridge straight onto the table.

Miele European Refrigeration Product Highlights

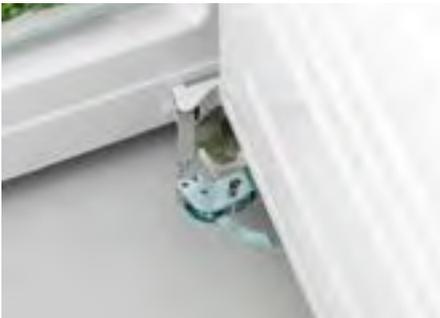

Exclusive to Miele **EasyOpen Lever Handle**
Easy to open, the elegant handle allows you to open the door extremely effortlessly.

Exclusive to Miele **Active AirClean Filter**
The combination of an active charcoal filter and chitosan (a natural product) effectively prevents unwanted odours.

Exclusive to Miele **SommelierSet**
Perfect for decanting, displaying and tempering wines for serving. This SommelierSet comes with the KWT6312 UGS.

SoftClose
The gentle self-closing door closes quietly and reliably, preventing items from falling out.

SelfClose
Drawers can be pulled out to their full depth and closed again with a gentle touch.

LED Lighting
Maintenance free and economical, the efficient and durable LEDs ensure perfect illumination of the interior.

IceMaker
The IceMaker, which can be controlled separately, quickly produces up to 100 ice cubes a day.

CleanTouch Steel
The surface is protected and no special cleaning agents are required, leaving the stainless steel fingerprint free.

VarioRoom
Storage space is adaptable and can be re-arranged if more room is required to freeze bulky items.

Automatic SuperCool/SuperFrost

Fast cooling and freezing is ideal for large quantities of food, extra cold drinks or gentle freezing.

FlexiFrame with NoteBoard

Individual slats can be repositioned and are simple to adjust to suit the bottle shape. A blackboard strip on the edge of the shelving allows the user to label each shelf with chalk.

Push2open

This appliance can be perfectly integrated into kitchens with handle-free units, as the door opens automatically by applying light pressure to the front.

Temperature Zones

Separate temperature controls allow you to store up to two different types of wine, requiring different temperatures.

Useful Information

Miele Refrigerators, Freezers and Wine Storage Systems - Glossary

Active AirClean Filter

Food must be stored in an environment which is not only cold but also odourless. This is also true for odourless storage of wine. The solution is the Miele Active AirClean filter. The innovative combination of active charcoal and chitosan, a natural product, eliminates virtually all odours in the refrigerator section. The filter is quick and easy to fit and is ready to be used straight away.

Automatic SuperCool/SuperFrost

Miele refrigerators give you more user convenience. Automatic SuperCool regulates the temperature of the refrigerator compartment down to the lowest level for six hours. Perfect for when larger items have to be cooled quickly. The freezer operates at the highest intensity thanks to Automatic SuperFrost. Quick freezing preserves the food and retains its consistency since the formation of ice crystals is prevented.

BrilliantLight

A number of halogen emitters illuminate each area of the refrigerator and show the refrigerated items in a pleasant soft light. The aluminium profiles, shimmering like velvet, add an extra touch of elegance to your appliance.

CleanTouch Steel

All stainless steel appliances are fitted with CleanTouch steel - a special surface finish. The advantage is less visible fingerprints. The appliance surface is thus very easy to clean, without the need for special cleaning agents.

ComfortClean

Miele ComfortClean door shelves are made from high-quality SAN plastic and are scratch-proof, resistant to chemicals, temperature-resistant and highly transparent. It is no longer necessary to manually wipe the shelves clean.

Drop and Lock

The metal door compartments are fully adjustable and ensure highest possible flexibility. This well thought-out functional feature provides particularly simple handling; the compartments can be easily and securely locked in place.

DynaCool

In addition to temperature, air humidity is also an important factor for perfect storage conditions of food and wine. With DynaCool, an integrated fan uniformly circulates the air, thus optimally distributing the temperature and air humidity.

EasyOpen Lever Handle

Miele refrigerators and freezers can be opened particularly simply and elegantly thanks to the ergonomic EasyOpen lever handle. Made from solid metal or stainless steel, look for perfect design harmony right down to the very last detail. The design of your Miele refrigerator perfectly matches the rest of your Miele built-in kitchen appliances.

FlexiFrame with NoteBoard

Every bottle rack features a magnetic strip for use with blackboard chalk. The strip is for noting, for example, a wine's origin, grape variety, year, etc. The NoteBoards are magnetic and can be removed from the shelves for writing on. The adjustable bottle racks hold every size of bottle securely. The individual slats can be moved easily to suit every bottle shape. Your wine is always stored in the optimum position.

FlexiLight

The new FlexiLight LED glass shelf lighting illuminates the interior of Miele refrigerators with no glare and with a unique luminosity and can also be individually positioned on any shelf level in various ways. In this way, depending upon the size and number of food items, the light source can be positioned so that it is not blocked, impairing the illumination of the interior. You can place FlexiLight wherever it is most suitable.

IceMaker

The automatic IceMaker can produce up to 100 ice cubes every day. Miele offers models with a main water connection and also with a water container. You can fill the water container as required.

LED Lighting

The indirect lighting is atmospheric and highlights the high quality of the materials. LED lights are maintenance-free and provide optimum illumination of the interior compartment. Compared with conventional lamps, LEDs are particularly energy-saving and have a considerably longer service life.

NoFrost

The intelligent frost-free system prevents the interior of the freezer from icing up. The drawers can be slid in and out easily without a layer of ice to hinder them. The NoFrost system provides significant time-savings and increased convenience since manual defrosting is not necessary. Circulating air inside the freezer also ensures that ice does not form over frozen food.

PerfectFresh

Your food can be stored in the PerfectFresh zone for a considerably longer period of time than in a conventional refrigeration section. Essential vitamins, minerals and freshness are retained up to 3x longer.

Push2open

Miele built-under wine storage systems with Push2open function open as if of their own accord. By applying light pressure to the glass door the automatic door opening feature is activated. The door opens gently to conveniently allow it to be pulled open wide. Miele wine storage systems with Push2open do not require a handle and can therefore be perfectly and unobtrusively integrated into any kitchen and living environment.

SelfClose

The PerfectFresh drawers in Miele built-in appliances can be pulled out completely and are gently self-closing. They can be pulled out particularly far. By gently touching them, the drawers slide and close automatically and softly. This increased user convenience provides you with comfortable and ample access to your stored food items.

SoftClose

With SoftClose, an innovative door closing system from Miele, refrigerator and freezer doors close silently and as if of their own accord. At an angle of less than 30°, the door closes automatically. With SoftClose, the doors close softly - no more clinking bottles in the door shelves.

SommelierSet

With Miele's unique SommelierSet, your guests will be impressed as you decant your fine wines like a professional. The new SommelierSet is always ready with all the equipment you need. Enjoy champagne and white wine in chilled glasses and perfectly condition wine bottles even after they have been opened.

Temperature Zones

Miele European wine storage systems are fitted with two different temperature zones which can be controlled separately. Two different types of wine such as red wine, white wine, Champagne or sparkling wine can be conditioned at the same time.

VarioBord

The high-quality, elegant VarioBord serving trays can be removed from the stainless steel fittings in the door in one step and can be hooked-in again easily. They are provided with a handle and are excellent for serving at the table.

VarioRoom

You can increase the size of the freezer section as needed thanks to the variable space design: VarioRoom. Very advantageous, for example, when you wish to store bulky frozen items. The drawers and glass shelves can be removed easily so you can create as much space as you need in no time at all.

Miele ForeverCare

Delivery, Installation, Customer Service

Miele ForeverCare

With Miele ForeverCare, you get a guarantee. A guarantee that our commitment to you extends far beyond the point of purchase. Rather, we'll provide unparalleled service throughout the very long life of your machine. We are confident in offering you exceptional customer service.

Visit The Miele Experience Centre

Miele Experience Centres are open to the public to provide the complete Miele experience and are located in four cities across Canada: Montreal, Toronto, Calgary, and Vancouver.

HAVE QUESTIONS?
 Please ask your Miele Chartered Agent for more information or go to miele.ca

What is Miele ForeverCare?

Miele provides unique advantages to our customers with a combination of features unparalleled in the appliance category, namely:

Manufacturer-Direct Service

If you ever have a problem with your Miele machine, our own Miele Factory Service Technicians will take care of it. Most problems can be solved on the first visit, as we know the exact model you have and carry the genuine Miele parts you will need.

Extended Warranty from the Manufacturer

We want you to enjoy a long and trouble-free experience with our machines. In addition to the standard warranty, we have Miele Extended warranty. This direct offer from Miele allows you to increase your hassle-free coverage up to 10 years. The extended warranty relationship remains strictly with Miele, so you can deal directly and exclusively with us if you have any issues.

Miele Custom Plans

The chart below illustrates how you can upgrade the benefits of ForeverCare.

Manufacturer Delivery and Installation

We want your machine to work perfectly from the first time you use it. So, we offer delivery and installation in your home ourselves, with our Miele-dedicated service team. Installation can be organized within 48 hours of ordering through the Miele Customer Care Centre, and your delivery is tracked with GPS so we can provide you with a near exact time of delivery.

Miele CareCollection

To ensure you make the most of your Miele appliance, we've created a range of everyday and specialty products available for purchase. From laundry detergent to dishwasher tablets and a variety of cooking accessories, these products are designed specifically for your appliance, ensuring better results and a longer, hassle-free lifespan.
