# Welcome to Miele

## IMMER BESSER (forever better) – our pledge

When our two great grandfathers founded the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be "better" than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being "Immer Besser" (forever better) throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.\*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Dr. Markus Miele

Dr. Reinhard Zinkann

# "Immer Besser" (Forever Better)

## Our Brand Promise

### There Are Many Good Reasons for Choosing Miele.

Since the company was founded in 1899, Miele has remained true to its "Immer Besser" (Forever Better) brand promise. This means that we will do all that we can to be "Immer Besser (Forever Better) than our competitors and "Immer Besser" (Forever Better) than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

### Miele Quality

Over the last 100 years, Miele has successfully earned the trust of consumers around the globe. Miele is the only manufacturer in the industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years of use. Once a Miele, always a Miele. Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking to the future, we promise not to entertain any compromises when it comes to the dependability and durability of our appliances.

### Miele Technology

Miele believes in achieving the best results while using the least amount of energy possible. This simple principle applies to all Miele categories - whether cooking or cleaning. The key is a wealth of innovative features that yield the best results and support low energy consumption. As a world-wide technology leader, achieving top scores in both performance and efficiency tests, Miele is always looking towards the future needs of tomorrow's consumer.

### Miele Convenience

Whether conventional rotary switch, discreet sensor controls or a high-resolution touch display like the one on your smart phone, operating a Miele is both easy and fun. Add to this a multitude of convenient and reliable automatic programs in both laundry and kitchen appliances. Make life easier for yourself with Miele!

### Miele Design

Clean lines and a European-inspired look define Miele appliances, creating a timeless and elegant design. Nowhere else will you find such a comparable range of matching built-in kitchen appliances that suit even the most diverse interior designs. Great care was taken by the Miele design team to coordinate appliance design across the entire product range, making Miele appliances the perfect choice for any home.

### Miele Service

Since 1899, Miele has been dedicated to creating extraordinary products that live up to our mantra, "Immer Besser" - a German phrase meaning "Forever Better". With ForeverCare, we've applied this same philosophy to our customer care practices. But ForeverCare is more than just a concept – it's a guarantee. A guarantee that our commitment to you will extend far beyond the point of purchase. Rather, we'll provide unparalleled service throughout the very long life of your machine. From payment, to delivery, to installation, to service we'll make sure your needs are always well taken care of.

### Miele Brand

In many countries, Miele is the most coveted brand in its industry. In its home market in Germany, Miele was even voted "Best Brand Ever" in 2013 across all product categories. Miele customers have high expectations for the performance and the environmental friendliness of their household appliances. This is a reflection of the standard of excellence that Miele holds itself to. People who choose Miele care about quality and are design-conscious.

# Miele MasterCool Refrigeration Assortment Overview

Miele appliances come equipped with convenient and innovative features to ensure that all types of food are kept fresh, frozen or stored under the most ideal conditions.

## Refrigerators

Miele refrigerators are designed to keep your groceries fresh in an efficient and well organized way. Intelligent MasterFresh compartments guarantee that food is always kept fresh.

## Bottom Mount Fridge Freezers

These appliances offer plenty of storage space for fresh and frozen food. Miele fridge-freezer combinations combine convenient storage of fresh food as well as frozen food in one appliance.

## Freezers

Miele freezers are powerful and efficient, and exemplary in terms of organization and functionality. They can be set up as stand-alone appliances or excellently combined with a matching Miele refrigerator as a side-by-side installation.

## Wine Storage Systems

Miele wine storage systems provide the optimum storage conditions for your wine collection. With individually controlled temperature zones for different types of wine, your reds and whites are guaranteed professional treatment. Miele wine units are not just professional equipment for wine connoisseurs, but are also a elegant designer piece for your home.

# Miele MasterCool Refrigeration Convenience Features

With the development of the MasterCool refrigeration products, Miele continues to set high standards. Superior design, and impressive innovative features are combined in refrigeration appliances of the highest calibre. Enjoy the benefits of completely new convenience features that work around your lifestyle.

## Sleek and Sophisticated

Elegant in design, MasterCool appliances offer the ultimate preservation of your food. The inimitable design also reflects extreme attention to detail.

## Unsurpassed Quality

Perfection and precision of the highest quality begins when selecting the right materials. Premium glass shelves, scratch-proof plastic and solid aluminium frames characterize the highest quality.

## Designed At Its Best

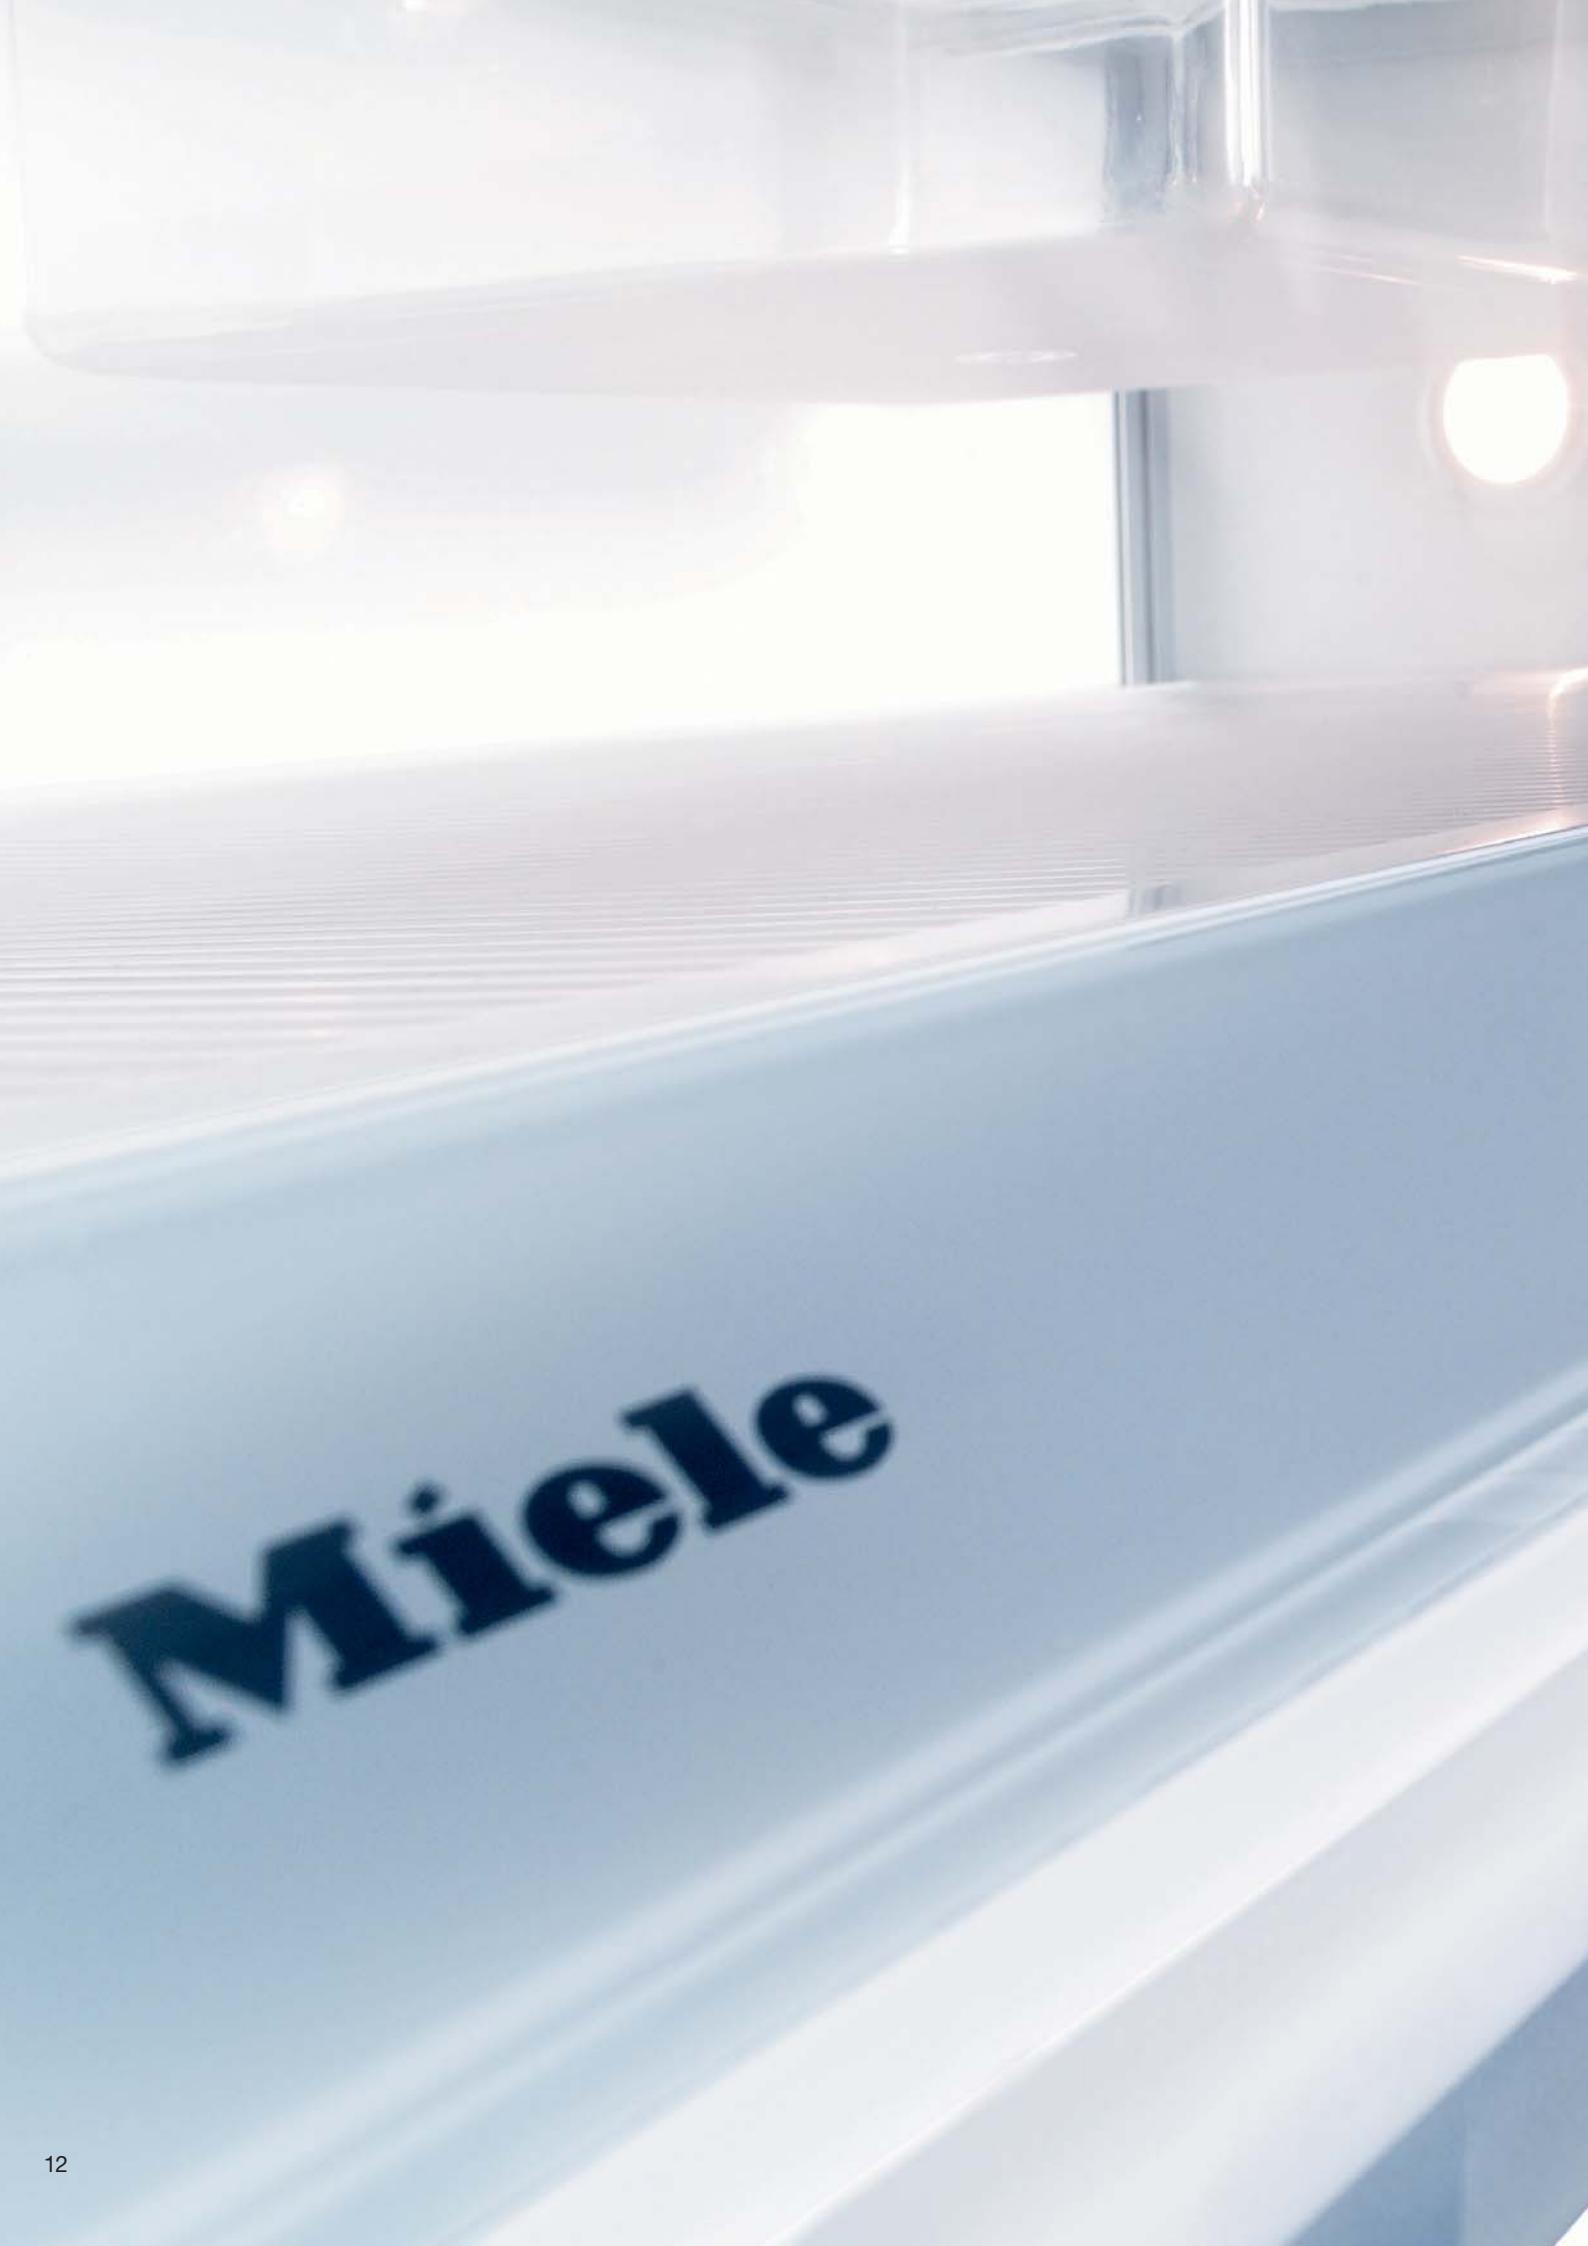

The unique interior features horizontal lines with an emphasis on puristic design. The smooth, white painted side panels inside the appliance are absolutely easy to clean and contribute to perfect, glare-free illumination.

## Maximum Convenience

MasterCool appliances offer the best in terms of convenience, such as ideal food storage conditions, dispensing of ice and water, a BrilliantLight lighting concept and convenient handling.

## Customized Just For You

Miele offers MasterCool refrigeration products which all house the same design features to provide endless combination options and ensure a harmonious integration between all refrigerators, freezers and wine storage units. Choose between various widths and the side on which the door hinge will be to fit your kitchen seemlessly.

Miele

## Revolutionary User Interface

### Miele MasterCool Control Panels

One of the most revolutionary aspects of MasterCool is found in the user interface. With most refrigeration appliances, the user is expected to have an elevated knowledge of the appropriate temperature and humidity levels needed to preserve and protect their diverse range of food items.

Meat, cheese, produce, even seafood, all demand unique storage conditions in order to be kept fresh and flavourful. Milk, for example, is stored perfectly at 4°C, while vegetables require a temperature just above freezing. When it comes to humidity control, meat, fish, dairy and deli items last longer in a drier environment than fruits and vegetables.

In reality, most people are unfamiliar with how to properly set these levels given the ambiguity of user controls. When the Miele MasterCool control system is activated, the user is greeted with a food-driven menu system that is easy to view, understand and adjust for each of its independent cooling zones. This intuitive functionality helps to create and maintain the optimum conditions required for specific food categories so freshness is retained.

# MasterFresh

## Food Stays Fresher Longer!

Fresh food is the basis for wholesome, healthy living. Fruit and vegetables should be consumed as crisp and fresh as when purchased. But who has the time to buy ingredients fresh every day?

Apart from the quality of the food at the point of purchase, the right storage conditions are also important. The storage conditions determine how fresh, tasty and healthy food still is when preparing it for consumption. This is easily achieved with MasterFresh.

MasterFresh, a special cooling zone in Miele refrigerators which offers ideal storage conditions for a variety of food, is the synonym for innovative food storage at Miele. Thanks to the MasterFresh zone, many types of fruit and vegetables, meat, fish and milk products remain fresh considerably longer than in conventional refrigerators. At a temperature of between 0°C and 3°C, as well as ideal humidity levels, even food that requires precise refrigeration conditions can be stored and retain its freshness.

### **Food stays fresher longer!**

Foods such as meat, fish and dairy products are ideally stored in a dry place. The low temperature between 0°C and 3°C ensures that your food remains fresh and retains its quality for a long time. In other words, less frequent trips to the grocery store and less waste, saving time and money for other nice things.

Tip: store food in its packaging or cover it to allow moisture to remain inside the food, and prevent the transfer of flavours and odours.

### **Food Remains Fresher Than in a Conventional Refrigerator**

Fruit and vegetables require high humidity storage conditions. When stored at low temperatures and high humidity levels, your food remains fresh for longer.

Filling the drawer with fresh fruit and vegetables creates humidity which is maintained thanks to its innovative Miele design. Fresh fruit and vegetables will always be kept fresh – crisp and tasty as if fresh from the market.

Tip: Place fruit and vegetables in their packaging in the drawer to allow humidity to develop. To ensure that a sufficient humidity level develops, the compartment should always be well stocked.

# Miele Wine Storage Systems

## Exceptional Wine Storage

As much as you treasure your valuable collection of wines, we treasure the technology that protects it. Our dynamic cooling systems safeguard your wines from unwanted fluctuations in temperature, humidity and vibration. In Miele full sized wine storage systems, three unique cooling zones, each with independent controls, are available to store or temper champagne and wine (white or red) at their ideal temperatures.

# Product Features

## MasterFresh

Apart from the quality of the food at the time of purchase, the right storage conditions are also important. The storage conditions determine how fresh, tasty and healthy food still is when preparing it for consumption. This is easily achieved with MasterFresh—perfect storage conditions for fresh food to retain vitamins, nutrients and flavours!

## BrilliantLight

Halogen spotlights illuminate all areas inside the refrigerator with soft lighting.

## DynaCool

A ventilator ensures excellent circulation and a uniform distribution of cold air.

## NoFrost

Manual defrosting is no longer necessary. Cooled air is circulated and prevents the formation of ice on food.

## Drop and Lock

Easy handling and safe. The metal door compartments are height adjustable and easily lock in place.

## Ice/Water Dispenser

At the touch of a button you are treated to refreshing ice and water from the built-in Ice/Water Dispenser.

# Miele MasterCool Refrigeration Product Highlights

## TouchControl

A fascia panel with a smooth interface enables users to set the exact required temperature.

## SuperCool/SuperFrost

Ideal for large quantities of food, extra cold drinks or gentle freezing.

## Acoustic Warning Signal

A warning signal sounds automatically when the door is left open, when the temperature rises beyond the critical level or after a power failure.

## IceMaker

The Miele IceMaker has separate controls and can quickly produce up to 100 ice cubes a day.

## CleanTouch Steel

The surface is protected and no special cleaning agents are required to prevent fingerprints on stainless steel.

## Temperature Zones

Up to three different types of wine requiring different temperatures can be stored at the same time thanks to separate temperature controls.

## Tinted Glass Front

The tinted glass door protects wine from exposure to ultra-violet light and ensures that a perfect micro-climate is maintained.

## Full Access Storage Drawers

MasterCool drawers can be pulled out to their full depth and conveniently loaded.

## MaxLoad Hinge

The extraordinarily strong door hinges ensure smooth opening of door.

# Useful Information

## Miele Refrigerators, Freezers and Wine Storage Systems Glossary

### **Acoustic Warning Signal**

A warning signal sounds when the door is left open, when temperature rises beyond a critical level or after a power failure. This enables you to react quickly to prevent cooled food from getting too warm, and frozen food from defrosting.

### **BrilliantLight**

A number of halogen emitters illuminate each area of the refrigerator and show the refrigerated items in a pleasant soft light. The aluminium profiles add an extra touch of elegance to your appliance.

### **CleanTouch Steel**

All stainless steel appliances are fitted with CleanSteel - a special surface finish. The result is less visible fingerprints. The appliance surface is thus very easy to clean, without the need for special cleaning agents.

### **Drop and Lock**

The metal door compartments are fully adjustable and ensure the highest possible flexibility. This well thought-out functional feature provides particularly simple handling; the compartments can be easily and securely locked in place.

### **DynaCool**

In addition to temperature, air humidity is also an important factor for perfect storage conditions of food and wine. With DynaCool, an integrated fan uniformly circulates the air, thus optimally distributing the temperature and air humidity.

### **Glass Door**

A tinted triple-glazed break-proof glass door protects wine from harmful ultra-violet light. Also, efficient heat insulation reliably ensures that a required micro-climate is maintained. You cannot provide better storage conditions for your wine.

### **IceMaker**

The automatic IceMaker can produce up to 100 ice cubes every day. Miele offers models with a main water connection and also with a water container. You can fill the water container as required.

### **Ice/Water Dispenser**

The 18" wide MasterCool freezer gives you superb convenient features. At the touch of a fingertip on the TouchDisplay, you are served ice and water from the built-in dispenser. The integrated light provides atmospheric lighting in the kitchen if desired.

### **MasterFresh**

In MasterCool drawers with controlled humidity levels, your food is stored in ideal storage conditions. The temperature is around 0°C and the humidity level adjusted to suit the needs of all types of food. Your food - especially fruit and vegetables - stay fresh for longer.

### **NoFrost**

The intelligent frost-free system prevents the interior of the freezer from icing up. The drawers can be slid in and out easily without a layer of ice to hinder them. The NoFrost system provides significant time-savings and increased convenience since manual defrosting is not necessary. Circulating air inside the freezer also ensures that ice does not form over frozen food.

### **SelfClose**

The PerfectFresh drawers in Miele built-in appliances can be pulled out completely and are self-closing. The drawers slide extremely softly and quietly. This increased user convenience provides you with comfortable and ample access to your stored food items.

### **SoftClose**

Refrigerator and freezer doors close silently and as if of their own accord with SoftClose- an innovative door closing system from Miele. At an angle of less than 30°, the door closes automatically. With SoftClose, the doors close gently- no more clinking bottles in the door shelves.

### **SuperCool/SuperFrost**

Miele refrigeration appliances offer additional convenience functions. SuperCool reduces the temperature to the lowest setting for 6 hours- perfect for cooling large quantities of food quickly. In SuperFrost, the freezer is running at full power. Quickly freezing food preserves nutrients excellently and retains the foods' texture as the formation of ice crystals is prevented.

### **Temperature Zones**

Miele wine storage systems are fitted with up to three temperature zones which can be controlled separately. Up to three different types of wine such as red wine, white wine, Champagne or sparkling wine can be conditioned at the same time.

### **TouchControl**

The TouchControl fascia is positioned at an ergonomic height and features a smooth user interface with light touch switches. The temperature can be selected with precision and is displayed digitally. This technical highlight also blends in with the elegant overall impression of the appliance –top-class design from Miele.

# Miele ForeverCare

## Delivery, Installation, Customer Service

### Miele ForeverCare

With Miele ForeverCare, you get a guarantee. A guarantee that our commitment to you extends far beyond the point of purchase. Rather, we'll provide unparalleled service throughout the very long life of your machine. We are confident in offering you exceptional customer service.

#### Visit The Miele Experience Centres

Miele Experience Centres are open to the public to provide the complete Miele experience and are located in four cities across Canada: Montreal, Toronto, Calgary, and Vancouver.

EMAIL:  
customerservice@miele.ca

HAVE QUESTIONS?  
Please ask your  
Miele Chartered Agent for more

### What is Miele ForeverCare?

Miele provides unique advantages to our customers with a combination of features unparalleled in the appliance category, namely:

#### Manufacturer-Direct Service

If you ever have a problem with your Miele machine, our own Miele Factory Service Technicians will take care of it. Most problems can be solved on the first visit, as we know the exact model you have and carry the genuine Miele parts you will need.

#### Extended Warranty from the Manufacturer

We want you to enjoy a long and trouble-free experience with our machines. In addition to the standard warranty, we have Miele Extended warranty. This direct offer from Miele allows you to increase your hassle-free coverage up to 10 years. The extended warranty relationship remains strictly with Miele, so you can deal directly and exclusively with us if you have any issues.

#### Miele Custom Plans

The chart below illustrates how you can upgrade the benefits of ForeverCare.

#### Manufacturer Delivery and Installation

We want your machine to work perfectly from the first time you use it. So, we offer delivery and installation in your home ourselves, with our Miele-dedicated service team. Installation can be organized within 48 hours of ordering through the Miele Customer Care Centre, and your delivery is tracked with GPS so we can provide you with a near exact time of delivery.

#### Miele CareCollection

To ensure you make the most of your Miele appliance, we've created a range of everyday and specialty products available for purchase. From laundry detergent to dishwasher tablets and a variety of cooking accessories, these products are designed specifically for your appliance, ensuring better results and a longer, hassle-free lifespan.
